Question

The following text is adapted from Nathaniel Hawthorne's 1837 story "Dr. Heidegger's Experiment." The main character, a physician, is experimenting with rehydrating a dried flower.

> At first [the rose] lay lightly on the surface of the fluid, appearing to imbibe none of its moisture. Soon, however, a singular change began to be visible. The crushed and dried petals stirred and assumed a deepening tinge of crimson, as if the flower were reviving from a deathlike slumber.

As used in the text, what does the phrase "a singular" most nearly mean?

Answer

A. A lonely

B. A disagreeable

C. An acceptable

D. An extraordinary

Correct Answer: D

Rationale

Choice D is the best answer because as used in the text, "singular" most nearly means extraordinary. The text portrays an experiment in which a character rehydrates a dried rose by infusing it with moisture. After prolonged contact with the liquid, the rose begins to absorb it, undergoing an exceptional transformation: its color deepens, its previously "crushed and dried" petals shift, and the entire flower revives "from a deathlike slumber." In other words, an extraordinary change is visible in the flower.

Choice A is incorrect. Although in some contexts "singular" can mean of or relating to an individual or to a single instance of something, this usage doesn't imply loneliness or an otherwise unsatisfactory condition of isolation. Moreover, the text doesn't attribute such a condition to the rose. Choice B is incorrect. Although "singular" has several related meanings, none of them relate to being disagreeable or unpleasant. Moreover, the text doesn't portray the change undergone by the rose as necessarily disagreeable. Choice C is incorrect because "singular" means extraordinary, not acceptable. The change is portrayed as striking, not barely satisfactory.

Question ID: f0be91b2

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

Drivers who strongly believe that the toll they must pay to use the Lewis and Clark Bridge, which spans the Ohio River to connect Indiana and Kentucky, is currently too high are unlikely to be _____ a proposal to increase the toll. Advocates for a higher toll are likely to have more success if they instead direct their arguments toward a more persuadable segment of the population.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. receptive to

B. apprised of

C. incensed by

D. cited in

Correct Answer: A

Rationale

Choice A is the best answer because it most logically completes the text's discussion of driver attitudes toward a toll increase. In this context, "receptive to" would mean open to or willing to consider something. The text focuses on drivers who think the current toll for the Lewis and Clark Bridge is too high, suggesting that advocates for increasing that toll would have better success presenting their arguments to "a more persuadable segment of the population" rather than to those drivers. This context suggests that the drivers who strongly believe the toll is already too high are not persuadable—that is, that they are unlikely to be willing to consider the toll-increase proposal.

Choice B is incorrect because "apprised of" means informed about or made aware of something, and nothing in the text suggests that the drivers who think a toll is already too high wouldn't be informed of a proposal for an even higher toll; in fact, the text implies that advocates of the proposal would "direct their arguments" in favor of the increase to those drivers, even though they would likely be more successful focusing on people who are more open to hearing their arguments. Choice C is incorrect. In this context, "incensed by" would mean angered or outraged by something. The text focuses on drivers who feel that a current toll is too high, and it wouldn't make sense to suggest that those drivers would be *unlikely* to be angered by a proposal for the toll to be increased; indeed, drivers who think the toll is already too high likely would be angered by a move to raise it even higher. Choice D is incorrect. In this context, "cited in" would mean referred to or mentioned in something. Although it's reasonable to suggest that a proposal to raise a toll might not make any mention of drivers who think the toll is already too high, the text focuses on how those drivers and other people are likely to react to arguments in favor of the proposal, not on whether those drivers would be cited in the proposal itself.

Question

According to a team of neuroeconomists from the University of Zurich, ease of decision making may be linked to communication between two brain regions, the prefrontal cortex and the parietal cortex. Individuals tend to be more decisive if the information flow between the regions is intensified, whereas they make choices more slowly when information flow is _____.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. reduced

B. evaluated

C. determined

D. acquired

Correct Answer: A

Rationale

Choice A is the best answer because it most logically completes the text's discussion of how the flow of information between two regions of the brain may affect the ease of people's decision making. In this context, "reduced" means decreased. The text presents the finding from a team of neuroeconomists that decision making may be connected to communication between the prefrontal cortex and the parietal cortex. In presenting this finding, the text suggests a contrast between people who tend to be more decisive and people who make decisions more slowly. According to the text, people tend to be more decisive when the flow of information between the two brain regions is intensified, or strengthened. On the other hand, this context suggests that people make choices more slowly when the flow of information between the two brain regions is decreased.

Choice B is incorrect because "evaluated" means assessed, which wouldn't make sense in context. According to the text, people tend to be more decisive when the flow of information between two brain regions is intensified, or strengthened. This suggests that people's ease of decision making varies based on the rate of information traveling between the regions, not based on an effort to assess the information. Choice C is incorrect because "determined" means judged or influenced, neither of which would make sense in context. According to the text, people tend to be more decisive when the flow of information between two brain regions is intensified, or strengthened. This suggests that people's ease of decision making varies based on the rate of information traveling between the regions, not based on an effort to judge or influence the information. Choice D is incorrect because "acquired" means developed or attained, neither of which would make sense in context. According to the text, people tend to be more decisive when the flow of information between two brain regions is intensified, or strengthened. This suggests that people's ease of decision making varies based on the rate of information traveling between the regions, not based on the development or attainment of the information.

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

At the turn of the twentieth century, Black residents of Richmond, Virginia, had few formal options for banking and other financial services. To _____ this situation, Maggie Lena Walker chartered the St. Luke Penny Savings Bank in 1903. The bank went on to provide home loans and savings opportunities to thousands of Black families over the following decades.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. prolong

B. rectify

C. retain

D. highlight

Correct Answer: B

Rationale

Choice B is the best answer because it most logically completes the text's discussion of how Maggie Lena Walker addressed the lack of financial services available to Black residents in Richmond, Virginia, at the turn of the twentieth century. In this context, "rectify" means to correct or remedy something undesirable. The text indicates that by chartering the St. Luke Penny Savings Bank in 1903, Walker took action to provide local Black residents with greater access to financial services like home loans and savings opportunities. This context supports the idea that she aimed to rectify the undesirable situation affecting these residents.

Choice A is incorrect because in this context, "prolong" would mean to lengthen something in time. The text indicates that at the turn of the twentieth century, Black residents in Richmond, Virginia, were faced with a lack of formal banking options. The text then states that Walker founded a new bank that provided these residents with financial services. Therefore, instead of prolonging the situation, she took steps to rectify, or correct, it. Choice C is incorrect because in this context, "retain" would mean to continue to have or to keep something. According to the text, at the turn of the twentieth century, Black residents in Richmond, Virginia, had few formal banking options, and Walker chartered a new institution to provide these residents with expanded financial services; therefore, she took steps to rectify, not retain, the situation. Choice D is incorrect because in this context, "highlight" would mean to emphasize or call attention to something, but the text indicates that Walker took concrete steps beyond merely drawing attention to the situation Black residents were facing in Richmond, Virginia, at the turn of the twentieth century. According to the text, Walker worked to rectify, or correct, the lack of formal banking options that were available to these residents by establishing a bank that provided them with home loans and savings opportunities.

Question ID: 757077f9

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

During a 2014 archaeological dig in Spain, Vicente Lull and his team uncovered the skeleton of a woman from El Algar, an Early Bronze Age society, buried with valuable objects signaling a high position of power. This finding may persuade researchers who have argued that Bronze Age societies were ruled by men to _____ that women may have also held leadership roles.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. waive

B. concede

C. refute

D. require

Correct Answer: B

Rationale

Choice B is the best answer because it most logically completes the text's discussion of the significance of the 2014 archaeological finding at El Algar. In this context, "concede" means to admit something is true after first resisting that admission. The text indicates that some researchers believe "Bronze Age societies were ruled by men." But the Bronze Age burial of a woman at El Algar included "valuable objects signaling a high position of power," which would raise the possibility that "women may have also held leadership roles." Thus, the text is calling into question the notion that only men were leaders in these societies and speculating that people holding this view may reconsider their opinion.

Choice A is incorrect because "waive" means to refrain from insisting that something, such as a right or a requirement, be observed; the word isn't used, however, in contexts where someone acknowledges that an opinion they hold may be invalid, as is the case in the text. Choice C is incorrect. According to the text, the finding from the El Algar burial site undermines the view that Bronze Age societies were exclusively ruled by men. However, "refute" means to demonstrate that something is false and would not make sense in context. Lull and team's finding supports the view that women may have also held leadership roles, not that they did not participate in such roles. Choice D is incorrect because in this context, "require" means to demand or specify as mandatory. However, it would not make sense for contemporary researchers to demand that Bronze Age "women may have also held leadership roles."

Question ID: 84ece3f6

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

The following text is adapted from Nathaniel Hawthorne's 1844 short story "Drowne's Wooden Image." Drowne, a young man, is carving a wooden figure to decorate the front of a ship.

> Day by day, the work assumed greater precision, and settled its irregular and misty outline into distincter grace and beauty. The general design was now obvious to the common eye.

As used in the text, what does the word "assumed" most nearly mean?

Answer

A. Acquired

B. Acknowledged

C. Imitated

D. Speculated

Correct Answer: A

Rationale

Choice A is the best answer because as used in the text, "assumed" most nearly means acquired, or came to possess. The text portrays a character named Drowne carving a figure out of wood. At first "irregular and misty," or haphazard and indistinct, the figure's outline gradually showed "distincter grace and beauty" until the general design of the carved object "was now obvious to the common eye," or plainly recognizable to anyone. In other words, as Drowne continued to carve, the wooden object came to possess, or acquired, greater precision, changing from an indistinct outline or shape into a graceful, beautiful, and clearly recognizable form.

Choice B is incorrect. Although in some contexts "assumed" can mean acknowledged, or recognized, it doesn't have that meaning in this context because an inanimate object like the wooden figure can't acknowledge its own precision. Choice C is incorrect because there's nothing in the text to suggest that the wooden figure merely imitated, or mimicked, precision. Rather, the text suggests that as Drowne carved his wooden figure, it gradually became more precise. Choice D is incorrect. Although in some contexts "assumed" can mean speculated, or supposed based on incomplete information, it doesn't have that meaning in this context because an inanimate object like the wooden figure can't speculate about its own precision.

Question ID: be612a26

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

Recent measurements of the mass of the *W* boson (a subatomic particle) were notable not only for the mere fact that the particle's mass differed from expectations but for the _____ of that difference: the measured mass of the *W* boson was seven standard deviations higher than predicted by the standard model of particle physics.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. cause

B. existence

C. implication

D. scale

Correct Answer: D

Rationale

Choice D is the best answer because it most logically completes the text's discussion of the *W* boson. In this context, "scale" means size or extent. The text indicates that recent measurements of the *W* boson were remarkable because they revealed the subatomic particle's mass to be much greater ("seven standard deviations higher") than had been expected based on a standard model. This context conveys not only that the measurements differed from predictions but also that the extent of the difference was very large.

Choice A is incorrect. Although the text indicates that there was a very large difference between the predicted mass and the actual measured mass of the subatomic particle, it doesn't explain the cause of, or reason behind, that difference. Choice B is incorrect because it wouldn't make sense to say that the measurements of the subatomic particle were notable because they differed from expectations and also because a difference existed between the measurements and what had been predicted; the text would be repeating the idea that there was a difference instead of adding to that idea. Choice C is incorrect because the text doesn't convey any implications of, or consequences of or conclusions drawn from, the fact that the mass of the subatomic particle differed from expectations; the context indicates only that the actual measured mass was much higher than the predicted mass.

Question ID: 3f37eb3b

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

People sometimes dismiss a claim if it comes from a source they regard as self-interested, but from a strictly logical perspective, the source of a claim is _____: it has no direct bearing on whether the claim is true.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. indistinct

B. irrelevant

C. indisputable

D. implicit

Correct Answer: B

Rationale

Choice B is the best answer because it most logically completes the text's discussion about people's tendency to dismiss claims from sources perceived as self-interested, or acting for their own advantage. In this context, "irrelevant" means not applicable to the matter at hand. The text explains that as a matter of logical reasoning, the source of a claim has nothing to do with the claim's truthfulness—a claim is either true or false in actuality, regardless of where it originates. This context suggests that even though people may distrust a claim based on its source, the source of the claim is actually irrelevant.

Choice A is incorrect because in this context, "indistinct" would mean uncertain or not clearly recognizable. Instead of suggesting that the source of a claim can't be determined with certainty, the text suggests that recognizing a source and having an opinion of it simply doesn't matter because as a matter of logic, a claim is true or false in actuality, regardless of where it originates. Choice C is incorrect because in this context, "indisputable" would mean impossible to question or deny. Although the text suggests that it isn't logical to assume a claim is false just because its source appears to be self-interested, it doesn't go so far as to suggest that the source of a claim can't be questioned—the text instead makes the point that from a logical standpoint, the source of a claim doesn't matter because the claim is either true or false in and of itself. Choice D is incorrect because in this context, "implicit" would mean suggested or understood without being directly expressed. Nothing in the text suggests that logically, the source of a claim is only suggested; instead of addressing whether sources can be directly identified, the text focuses on the idea that sources don't matter because a claim is true or false in actuality, regardless of where it originates.

Question ID: 4974b053

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

Although science fiction was dominated mostly by white male authors when Octavia Butler, a Black woman, began writing, she did not view the genre as _____: Butler broke into the field with the publication of several short stories and her 1976 novel *Patternmaster*, and she later became the first science fiction writer to win a prestigious MacArthur Fellowship.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. legitimate

B. impenetrable

C. compelling

D. indecipherable

Correct Answer: B

Rationale

Choice B is the best answer because it most logically completes the discussion of Octavia Butler's career. In this context, "impenetrable" means impossible to enter. The text indicates that the field of science fiction was dominated by white males when Butler, a Black woman, started writing, but she published several science fiction short stories and a novel and later won a prestigious award; that is, Butler pursued science fiction writing and had success. This context suggests that Butler didn't view the genre as impossible to enter.

Choice A is incorrect. In this context, "legitimate" would mean genuinely good or valid. Nothing in the text suggests that Butler didn't think the science fiction genre was good or valid; in fact, it indicates that she pursued and made a successful career of publishing work in that field. Choice C is incorrect. In this context, "compelling" would mean attracting or demanding attention. The text indicates that Butler chose to write science fiction, so it wouldn't make sense to say that she didn't see the field as drawing her attention. Choice D is incorrect. To say that Butler didn't consider science fiction "indecipherable," or impossible to understand, would suggest that Butler did understand it. However, the text doesn't address Butler's ability to interpret works in the genre; rather, it focuses on Butler's successful pursuit of writing science fiction.

Question ID: 710799ae

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

Cuttlefish appear to be surprisingly _____ at exercising self-control: in a 2021 study conducted by behavioral ecologist Alexandra Schnell, these cephalopods routinely demonstrated restraint by delaying gratification, waiting for a favorite treat instead of instantly devouring a readily available meal.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. awkward

B. imaginative

C. manageable

D. competent

Correct Answer: D

Rationale

Choice D is the best answer because it most logically completes the text's discussion of self-control in cuttlefish. In this context, "competent" means capable. The text describes a study in which cuttlefish demonstrated an ability to exercise restraint by waiting for a favorite treat instead of eating a meal that was already available to them. That is, by delaying gratification, the cuttlefish in the study demonstrated that they were capable of, or competent at, exercising self-control.

Choice A is incorrect because nothing in the text suggests that in demonstrating self-control, cuttlefish are "awkward," or lacking skill or grace. If anything, the text indicates that cuttlefish appear to be surprisingly skilled at exercising self-control. Choice B is incorrect because in this context, "imaginative" would mean creative, and there's nothing in the text to suggest that cuttlefish demonstrate creativity. Instead, the text focuses on the fact that cuttlefish seem to be capable of exercising restraint and self-control. Choice C is incorrect because in this context, "manageable" would mean capable of being controlled. Although the text indicates that the cuttlefish in the study demonstrated restraint by waiting for a favorite treat instead of devouring a readily available meal (which suggests their ability to control themselves), it doesn't suggest that cuttlefish are thus also able to be managed or controlled by others.

Question ID: 23974d6c

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

There are many famous examples of election pollsters making inaccurate predictions in presidential elections. But neuroscientist and election pollster Sam Wang has said that these prediction failures should not lead campaigns to _____ election polling entirely. Polling is about more than just predicting the winner; throughout campaigns, it helps strategists identify where their efforts are most likely to be effective.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. distort

B. enact

C. neglect

D. supplement

Correct Answer: C

Rationale

Choice C is the best answer because it most logically completes the text's discussion of election polling. In this context, to "neglect" would mean to disregard or pay insufficient attention to something. The text states that there have been many cases of election pollsters incorrectly predicting presidential elections and then says that neuroscientist and pollster Sam Wang notes that campaigns shouldn't react to these failures in a certain way. The text then adds that polls are valuable for informing strategists' efforts throughout campaigns, not just for predicting the outcome. This context conveys that Wang's advice is not to neglect, or disregard, polling because even though it sometimes fails to predict the winner, it can help improve campaign strategies.

Choice A is incorrect. In this context, to "distort" would mean to give a false or misleading account. Though the text states that many election pollsters have failed in their predictions in presidential elections, it gives no indication that Wang would therefore argue that campaigns shouldn't react to such polling failures by giving inaccurate accounts of election polling. Instead, the text emphasizes that polls have value beyond predicting winners, suggesting that Wang's point is that campaigns shouldn't stop polling entirely. Choice B is incorrect because it wouldn't make sense to suggest that Wang encourages campaigns not to "enact," or establish, election polling; the text indicates that election polling is something that already takes place and that has value for campaign strategies even if it sometimes leads to inaccurate predictions of winners, suggesting an argument in favor of continuing to use election polling. Choice D is incorrect. Although the text indicates that many election pollsters have failed in their predictions in presidential elections, there's no reason to think Wang would say that these failures should lead campaigns *not* to "supplement," or add to, election polling; it would be reasonable to suggest that campaigns *would* want to consider more than just election polling information if that information may lead to inaccurate predictions. Moreover, the text's main point is that polls provide some utility even if their predictions may be inaccurate, which suggests that Wang's recommendations pertain to whether campaigns should or shouldn't use polling data, not whether polling data should or shouldn't be supplemented with other kinds of information.

Question ID: 5a278f24

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

The work of molecular biophysicist Enrique M. De La Cruz is known for _____ traditional boundaries between academic disciplines. The university laboratory that De La Cruz runs includes engineers, biologists, chemists, and physicists, and the research the lab produces makes use of insights and techniques from all those fields.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. epitomizing

B. transcending

C. anticipating

D. reinforcing

Correct Answer: B

Rationale

Choice B is the best answer. Based on the text, we're looking for a word that means something similar to "mak[ing] use of insights and techniques from all those fields." "Transcending" means "going beyond," so "transcending traditional boundaries" would mean crossing into all those various fields of research, which is exactly the meaning we want.

Choice A is incorrect. This isn't a logical word choice. Based on the text, we're looking for a word that means something similar to "mak[ing] use of insights and techniques from all those fields." To "epitomize" means to "be a perfect example of," so "epitomizing traditional boundaries" would mean the opposite of what we want: keeping the fields of research separate. Choice C is incorrect. This isn't a logical word choice. Based on the text, we're looking for a word that means something similar to "mak[ing] use of insights and techniques from all those fields." "Anticipating" means "expecting" or "waiting for," and would result in a confusing sentence with an unclear meaning. Choice D is incorrect. This isn't a logical word choice. Based on the text, we're looking for a word that means something similar to "mak[ing] use of insights and techniques from all those fields." "Reinforcing traditional boundaries" would mean the opposite: keeping the fields of research separate.

Question ID: adc8ea28

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

The fossil remains of the individual known as Oase 1, discovered in Romania in 2002, can help paleoanthropologists not only _____ steps in the evolution of hominids but also illuminate the Pleistocene epoch generally, revealing important details about the time in which Oase 1 lived.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. exploit

B. discern

C. prioritize

D. yield

Correct Answer: B

Rationale

Choice B is the best answer because it most logically completes the text's discussion of the utility of the Oase 1 fossil to paleoanthropologists. As used in this context, "discern" means to detect or recognize something, especially something hidden or obscure. The text indicates that the Oase 1 fossil can help paleoanthropologists recognize patterns in the evolutionary process and shed light on ("illuminate") the period in which Oase 1 lived. Thus, the fossil will enable researchers to gain insights into, or discern, facts that are still not well understood.

Choice A is incorrect because in this context, "exploit" would suggest that the paleoanthropologists are using "steps in the evolution of hominids," which does not make logical sense. Rather, the text is about how the Oase 1 fossil could help paleoanthropologists learn about hominid evolution and the Pleistocene epoch more generally. Choice C is incorrect because in this context, "prioritize" would suggest that either the paleoanthropologists are placing more importance on "steps in the evolution of hominids" than they are on something else not identified in the text or that they are placing these steps in some sort of order. Rather, the text is about how the Oase 1 fossil could help paleoanthropologists learn about hominid evolution and the Pleistocene epoch more generally. Choice D is incorrect because to say that paleoanthropologists could "yield" or generate "steps in the evolution of hominids" doesn't make sense. The researchers may develop new insights into those evolutionary steps, but they do not create those steps themselves. Rather, the context makes it clear that they are detecting or discovering patterns based on their study of the Oase 1 fossil.

Question ID: 9107ad5c

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

Stars form in cloudlike swirls of gas and dust that cannot be touched, but astrophysicist Nia Imara believes these formations need not remain completely _____ to researchers: she uses simulation data and sophisticated 3D printers to produce interactive models of these stellar nurseries.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. repeatable

B. explicable

C. regrettable

D. intangible

Correct Answer: D

Rationale

Choice D is the best answer because it most logically completes the text's discussion of how Nia Imara facilitates the study of star formations. As used in this context "intangible" means unable to be physically handled or touched. The text states that star formations cannot be touched, and then goes on to explain that Imara created a special model to research star formations. In other words, despite the fact that real star formations are intangible, thanks to Imara, researchers can handle models of star formations to better understand them.

Choice A is incorrect because "repeatable" means can be duplicated or done again, which wouldn't make sense in context. The text indicates that the swirls of gas and dust in which stars form are untouchable, but that Nia Imara has produced interactive models of them. It would therefore be illogical to suggest that Imara believes that the formations need not be duplicated and then go on to say that she has copied them. Choice B is incorrect because "explicable" means explainable or understandable, which wouldn't make sense in context. The text does not suggest that Nia Imara believes that star formations can be fully explained but rather that she produced interactive models to physically study them because researchers are unable to touch them directly. Choice C is incorrect because "regrettable" means distressing or unfortunate, which wouldn't make sense in context. The text does not suggest that Imara believes the researchers regret the star formations or find them distressing, but rather that she uses interactive models to physically study them.

Question ID: e0656211

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

In *Nature Poem* (2017), Kumeyaay poet Tommy Pico portrays his _____ the natural world by honoring the centrality of nature within his tribe's traditional beliefs while simultaneously expressing his distaste for being in wilderness settings himself.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. responsiveness to

B. ambivalence toward

C. renunciation of

D. mastery over

Correct Answer: B

Rationale

Choice B is the best answer because it most logically completes the text's description of how Pico feels about the natural world. In this context, to say that Pico portrays his "ambivalence toward" nature would mean that he portrays his mixed feelings about nature. The text explains that Pico "honors the centrality of nature" and also makes it clear that he doesn't enjoy being in nature. This context suggests that Pico feels ambivalence toward nature.

Choice A is incorrect because saying that Pico portrays his "responsiveness to" nature would mean that he portrays himself as quick to react to nature, which isn't supported by the text. Instead, the text focuses on Pico's mixed feelings toward nature, describing him as both honoring nature's role in his tribe's beliefs and expressing his personal dislike for being in nature. Choice C is incorrect because saying that Pico portrays his "renunciation of" nature would mean that he portrays himself as rejecting nature, which isn't supported by the text. The text conveys that Pico demonstrates both positive and negative responses toward nature, not that he's giving it up completely. Choice D is incorrect because saying that Pico portrays his "mastery over" nature would mean that he portrays himself as having control over nature, which isn't supported by the text. The text focuses on Pico's mixed feelings about nature; nothing in the text suggests that Pico feels mastery over nature.

Question ID: 9aa44886

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

The following text is from F. Scott Fitzgerald's 1925 novel *The Great Gatsby*.

> [Jay Gatsby] was balancing himself on the dashboard of his car with that resourcefulness of movement that is so peculiarly American—that comes, I suppose, with the absence of lifting work in youth and, even more, with the formless grace of our nervous, sporadic games. This quality was continually breaking through his punctilious manner in the shape of restlessness.

As used in the text, what does the word "quality" most nearly mean?

Answer

A. Standard

B. Prestige

C. Characteristic

D. Accomplishment

Correct Answer: C

Rationale

Choice C is the best answer. "This quality" refers to Gatsby's "resourcefulness of movement," which is described as a characteristic or trait of his.

Choice A is incorrect. This isn't what "quality" means in this context. Here, "this quality" refers to Gatsby's "resourcefulness of movement," which is described as a characteristic or trait of his. "Standard" is a synonym for a different definition of "quality": the degree of excellence of something. Choice B is incorrect. This isn't what "quality" means in this context. Here, "this quality" refers to Gatsby's "resourcefulness of movement," which is described as a characteristic or trait of his. "Prestige" would suggest a high status or an admirable reputation, which doesn't match that description. Choice D is incorrect. This isn't what "quality" means in this context. Here, "this quality" refers to Gatsby's "resourcefulness of movement," which is described as a characteristic or trait of his. "Accomplishment" would suggest an achievement, which doesn't match that description.

SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

The following text is adapted from Upton Sinclair's 1906 novel *The Jungle*. Marija is helping to manage her sister's wedding.

> It was [Marija's] task to see that all things went in due form, and after the best home traditions; and, flying wildly hither and thither, bowling every one out of the way, and scolding and exhorting all day with her tremendous voice, Marija was too eager to see that others conformed to the proprieties to consider them herself.

As used in the text, what does the word "consider" most nearly mean?

Answer

A. Take into account and follow

B. Admire steadily and praise

C. Come to a decision about

D. Have an opinion on

Correct Answer: A

Rationale

Choice A is the best answer because as used in the text, "consider" most nearly means to take into account and follow. The text explains that Marija's job was to make sure that her sister's wedding proceeded in certain ways ("in due form") and that she loudly directed everyone's actions all day. The text then indicates that Marija was so focused on ensuring that others "conformed to the proprieties"—that is, that they behaved in appropriate ways—that she failed to "consider them herself"; that is, she didn't take standards of appropriate behavior into account and follow them in her own actions.

Choice B is incorrect. In some contexts, "consider" can mean to think about something in a positive way—which can involve admiration—but the text doesn't suggest that Marija was so busy imposing "proprieties" (standards of appropriate behavior) on others that she didn't admire and praise them herself. The context suggests it's more likely that Marija did speak positively of "due form" and "the best home traditions" while ensuring others behaved in certain ways. Choice C is incorrect. In some contexts, "consider" can mean to come to a decision, but the text doesn't suggest that Marija wasn't able to make a decision for herself about the "proprieties" (standards of appropriate behavior) she ensured everyone else conformed to. Rather, the context conveys that Marija knew very clearly which behaviors others should follow as "due form" and "the best home traditions." Choice D is incorrect. In some contexts, "consider" can mean to have an opinion, but the text doesn't suggest that Marija wasn't able to have an opinion on the "proprieties" (standards of appropriate behavior) she was ensuring others conformed to. Rather, the context conveys that Marija had strong feelings about which behaviors were "due form" and "the best home traditions."

Question ID: e8c26398

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

To develop a method for measuring snow depth with laser beams, NASA physicist Yongxiang Hu relied on _____; identifying broad similarities between two seemingly different phenomena, Hu used information about how ants move inside colonies to calculate how the particles of light that make up laser beams travel through snow.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. a collaboration

B. an accessory

C. a contradiction

D. an analogy

Correct Answer: D

Rationale

Choice D is the best answer. The text after the semicolon tells us that Hu "identif[ied] broad similarities between two seemingly different phenomena," comparing ants with light particles. Since an analogy seeks similarities between seemingly unrelated phenomena, this fits the context perfectly.

Choice A is incorrect. "A collaboration" refers to "an act of working with others," but what comes after the semicolon doesn't describe collaboration with other researchers. Instead, it shows a comparison between two different (but ultimately similar) scientific phenomena. Choice B is incorrect. "An accessory" can refer to "something added to increase attractiveness or usefulness." No accessories are described in this text. Choice C is incorrect. "A contradiction" means "a set of ideas or things that are opposed to or inconsistent with each other." The text describes how Hu used the similarity between ant and light particle movement to develop his method, so a word that refers to difference would not make sense here.

Question ID: 4830ab87

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

The way in which individual elements are balanced within a photographic image tends to affect how viewers perceive it: symmetry tends to give the elements equal importance, asymmetry emphasizes differences, and radial balance (organizing the elements around a central point) emphasizes the center over the periphery. What a photograph conveys is therefore largely _____ how it is balanced.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. inhibited by

B. contingent on

C. obligated to

D. reserved for

Correct Answer: B

Rationale

Choice B is the best answer because it most logically completes the text's discussion of visual balance in photography. In this context, "contingent on" means conditional upon, or determined by. The text indicates that different ways of balancing elements in a photograph convey different ideas to viewers (for example, symmetrical composition tends to emphasize similarity among elements, whereas asymmetry tends to emphasize difference). Thus, there is a strong connection between what a photograph conveys and how its elements are balanced. Therefore, what a photo conveys is contingent on how it is balanced.

Choice A is incorrect. In this context, "inhibited by" most nearly means hindered or undermined by. The text indicates that different ways of balancing elements in a photograph convey different ideas to viewers, thereby indicating a relationship between image balance and what is conveyed. Although this explanation is consistent with a photographer choosing asymmetrical balance even while intending to convey similarity (associated with symmetrical balance), there is nothing to indicate that messages generally are inhibited by balance. Rather the implication is that balance is a tool photographers can use to craft their messages. Choice C is incorrect. In this context, "obligated to" means duty bound toward or answerable to. In context, it would not make sense to assert that a photograph's message is obligated to how that photograph is balanced. Choice D is incorrect. In this context, "reserved for" most nearly means solely available to someone or held aside for some purpose. The text as a whole does not support the claim that a photograph's message is reserved for how that photograph is balanced.

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

Economist Jingting Fan argues that the effects of international trade may display spatial variation at sub-national levels. For instance, imported goods may reduce expenses for a country's average consumer, but for consumers living far from ports, high intranational transport costs could _____ the price advantages associated with imports.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. nullify

B. denigrate

C. underestimate

D. misconstrue

Correct Answer: A

Rationale

Choice A is the best answer because it logically completes the text's discussion of imported goods and consumer prices. In this context, "nullify" most nearly means negate or undermine. The text indicates that importing goods to a country can reduce consumer prices in that country, then cautions that the costs of transporting goods within the country is also a factor. These transportation costs likely raise the prices that must be paid by people who live far from the ports of entry. Therefore, the intranational transportation costs could nullify the price advantages to consumers of importing goods.

Choice B is incorrect. In this context, "denigrate" would most nearly mean disparage or deny the importance of. Since transportation costs would not be capable of denying the importance of price advantages, it would not make sense to state that intranational transportation costs denigrate the price advantages of importing goods. Choice C is incorrect. In this context, "underestimate" would most nearly mean predict a lower value for, or to undervalue, someone or something. Though transportation costs might be undervalued, they cannot themselves undervalue something else, so it would not make sense to state that intranational transportation costs underestimate the price advantages of importing goods. Choice D is incorrect. In this context, "misconstrue" would most nearly mean misunderstand. Since transport costs are not capable of understanding, it would not make sense to claim that intranational transportation costs misconstrue the price advantages of importing goods.

Question ID: 8b46bb51

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

A journalist and well-respected art critic of nineteenth-century Britain, Lady Elizabeth Rigby Eastlake did not hesitate to publish reviews that went against popular opinion. One of her most divisive works was an essay questioning the idea of photography as an emerging medium for fine art: in the essay, Eastlake _____ that the value of photographs was informational rather than creative.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. exposed

B. asserted

C. discovered

D. doubted

Correct Answer: B

Rationale

Choice B is the best answer. "Asserted" means "stated confidently." Eastlake "did not hesitate to publish reviews going against popular opinion," so we can assume that she was confident in sharing her opinions.

Choice A is incorrect. "Exposed" means "made visible by uncovering" and, when talking about ideas, tends to be used in relation to uncovering the truth. Eastlake was sharing an opinion, not uncovering a truth. Choice C is incorrect. "Discovered" means "found," but Eastlake was writing an opinion essay. She was writing her own opinion, not "discovering" a new universal truth. Choice D is incorrect. "Doubted" means "didn't believe in." We're told that Eastlake "questioned" the idea that photography could be fine art. Placing "doubted" in the blank would actually suggest that Eastlake argued that photos were valuable for creativity and not for information, which is the opposite of what we were told she believes.

Question ID: ce8c03a8

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

The Illustrated History of San Mateo County, published in 1878, features several illustrations by Grafton Tyler Brown showing the California county's farms, residences, and businesses. It was _____ for a business to be featured, since being included suggested that a business was an important part of the community.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. risky

B. misleading

C. advantageous

D. unremarkable

Correct Answer: C

Rationale

Choice C is the best answer because it most logically completes the text's discussion of businesses being featured in *The Illustrated History of San Mateo County*. In this context, "advantageous" means beneficial or providing a favorable position. The text explains that being included in the book "suggested that a business was an important part of the community," and it can be inferred that an enhanced reputation within the local community would benefit a business, commercially or otherwise. This context supports the idea that being featured in this publication would be advantageous.

Choice A is incorrect because in this context, "risky" would suggest that being featured in *The Illustrated History of San Mateo County* might have negative consequences for a business. However, the text implies only positive outcomes since inclusion indicated importance within the local community. Choice B is incorrect because "misleading" would mean deceptive or deliberately giving a wrong impression, but the text doesn't indicate there was something deceptive about being featured in *The Illustrated History of San Mateo County*; rather, it suggests that inclusion indicated community importance. Choice D is incorrect because "unremarkable" would mean common or ordinary, which doesn't make sense in context. The text suggests that inclusion in *The Illustrated History of San Mateo County* instead conferred a special status on a business by conveying its importance in the local community.

Question ID: 2e8ab360

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

Eighteenth-century historian Edward Gibbon thought the only character defect of the Roman emperor Marcus Aurelius was his mild temperament—though the emperor was widely considered virtuous, his overly permissive nature led him to _____ the vices of those who surrounded him.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. indulge

B. despise

C. moderate

D. criticize

Correct Answer: A

Rationale

Choice A is the best answer because it most logically completes the text's discussion of the Roman emperor Marcus Aurelius. In this context, "indulge" means treat with excessive leniency. The text states that according to historian Edward Gibbon, Marcus Aurelius, who was widely considered virtuous, had only a single character flaw: his mild temperament. The text suggests that because of this flaw, Marcus Aurelius had an overly permissive nature. This context, in turn, supports the idea that Marcus Aurelius treated the vices, or evils, of those around him with excessive leniency, indulging rather than punishing those vices.

Choice B is incorrect. While the text does state that Marcus Aurelius was widely considered virtuous, it gives no indication that he was inclined to "despise," or hate, others' vices. Rather, the text suggests that he showed undue tolerance for these vices because of his overly permissive nature—that is, his inclination to allow others to do as they wished. Choice C is incorrect because the text's description of Marcus Aurelius as overly permissive suggests that he showed undue tolerance for others' vices, not that he tried to "moderate" those vices, or lessen their intensity. Choice D is incorrect because the text's description of Marcus Aurelius as overly permissive suggests that he showed undue tolerance for others' vices, not that he attempted to "criticize," or speak disapprovingly of, those vices.

Question ID: d3ca5d59

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

Stephen Hannock's luminous landscape paintings are appealing to viewers but have elicited little commentary from contemporary critics, a phenomenon that may be due to the very fact that the paintings seem so _____. Many critics focus their attention on art that is cryptic or overtly challenging.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. innovative

B. subversive

C. profound

D. accessible

Correct Answer: D

Rationale

Choice D is the best answer. When talking about a thing, "accessible" means "easy to understand." This sets up the contrast in the next sentence, which tells us that critics mostly focus on art that is "cryptic or challenging" (meaning not easy to understand).

Choice A is incorrect. This doesn't fit the logic of the text. The next sentence tells us that critics focus on art that is mysterious and challenging. If Hannock's paintings are "innovative" (meaning advanced and original), then critics probably would comment on them. Choice B is incorrect. This doesn't fit the logic of the text. The next sentence tells us that critics focus on art that is mysterious and challenging. If Hannock's paintings are "subversive" (meaning disruptive and revolutionary), then critics probably would comment on them. Choice C is incorrect. This doesn't fit the logic of the text. The next sentence tells us that critics focus on art that is mysterious and challenging. If Hannock's paintings are "profound" (meaning very deep and insightful), then critics probably would comment on them.

Question ID: c5b1afe5

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

Bicycle sharing systems allow users to rent a bicycle at one location within a city and return it to any other designated location in that city, which can cause serious problems of bicycle supply and user demand within the city's system. Tohru Ikeguchi uses open-source data and statistical modeling to identify when a high number of users making one-way trips is likely to leave some locations within the system _____ bicycles and other areas with insufficient supply.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. susceptible to

B. contingent on

C. saturated with

D. depleted of

Correct Answer: C

Rationale

Choice C is the best answer because it most logically completes the text's discussion of Ikeguchi's model of bicycle supply. In this context, "saturated with" means thoroughly or completely supplied with. The text explains a problem encountered by some bicycle-sharing programs: users can return bicycles to different locations than where the users picked up the bicycles to start, which can result in a mismatch between bicycle supply (that is, where the bicycles are currently located) and user demand (that is, the locations where users are hoping to pick up bicycles). The text goes on to explain that Ikeguchi developed a way to identify when this mismatch is likely to occur. This context suggests that Ikeguchi's method will show when it is likely that some locations have an insufficient supply and other locations, by implicit contrast, are saturated with bicycles.

Choice A is incorrect because nothing in the text suggests that some locations are "susceptible to," or sensitive to or easily influenced by, bicycles. The text describes the phenomenon of bicycles being redistributed away from locations where users want them, not anything about those locations being influenced by the bicycles. Choice B is incorrect because the text describes situations in which some locations have an insufficient supply of bicycles because the bicycles have been relocated elsewhere, which suggests that the other locations have many bicycles, not that the other locations are "contingent on," or dependent on, the bicycles. Nothing in the text suggests that the locations themselves depend on the bicycles for anything. Choice D is incorrect because it would not make sense in context to say that some locations are "depleted of," or empty of, bicycles while others have an insufficient supply. The text describes situations in which bicycles have been relocated such that there is a mismatch between bicycle supply and user demand—the bicycles are no longer at the locations where users want to pick them up. This means that some locations do not have enough bicycles, while other locations must have many bicycles, not be depleted of bicycles.

Question ID: 81a3a607

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

In the Indigenous intercropping system known as the Three Sisters, maize, squash, and beans form an _____ web of relations: maize provides the structure on which the bean vines grow; the squash vines cover the soil, discouraging competition from weeds; and the beans aid their two "sisters" by enriching the soil with essential nitrogen.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. indecipherable

B. ornamental

C. obscure

D. intricate

Correct Answer: D

Rationale

Choice D is the best answer because it most logically completes the text's discussion of the Three Sisters intercropping system. As used in this context, "intricate" would mean made up of complexly related elements. The text indicates that in the Three Sisters system, maize, squash, and beans form a "web of relations" in which the crops interact in various ways. The text's description of these interactions—the bean vines growing on the maize stalks, the squash vines keeping weeds away, and the beans adding nutrients that the maize and squash use—provides context suggesting that this "web of relations" is intricate.

Choice A is incorrect because describing the relationship among the crops in the Three Sisters system as "indecipherable," or impossible to comprehend, would not make sense in context. Although the text presents the relationship as complex, the text's description of the role that each crop plays makes it clear that the relationship is well understood, not indecipherable. Choice B is incorrect because the text discusses the practical benefits that each plant in the Three Sisters system provides to other members of the system, showing that the relationship among the crops that make up the system is not "ornamental," or mainly serving a decorative purpose. Choice C is incorrect because describing the relationship among the crops in the Three Sisters system as "obscure," or unknown or poorly understood, would not make sense in context. Although the text presents the relationship as complex, the text's description of the role that each crop plays makes it clear that the relationship is well understood, not obscure.

Question ID: 995358b4

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

In a 2022 study, Nicolás M. Morato and colleagues attempted to resolve a long-standing paradox: although water is critical to most reactions that enable life, during the earliest stages of Earth's history—when most of the planet's surface was covered by oceans—the presence of water likely _____ the formation of proteins and other biomolecules that are found in all living organisms.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. reflected

B. hampered

C. imitated

D. exploited

Correct Answer: B

Rationale

Choice B is the best answer because it most logically completes the text's discussion of a scientific paradox regarding water and life during Earth's early history. In this context, "hampered" means hindered or impeded. The text discusses a paradox, or a situation that seems to contradict itself, and indicates that one half of the paradox is that the presence of water is necessary to support most biochemical reactions that enable life. The contradictory idea, then, would be a case of the presence of water not supporting such reactions; this context suggests that the other half of the paradox is that when oceans covered most of the planet, the water likely hindered or impeded a biochemical process (the formation of biomolecules) that is important for all living organisms.

Choice A is incorrect. In this context, "reflected" would mean showed or gave an indication. The text focuses on a paradox, or a seemingly self-contradictory situation, having to do with the role of water in supporting life; since the first part of the paradox has to do with water usually being essential for enabling life, the second part of the paradox should have to do with water having a negative effect on life, and water being an indication of a biomolecular process important for life wouldn't be a negative thing. Choice C is incorrect. In this context, "imitated" would mean mimicked or copied, and it isn't clear what it would mean to say that water being present on early Earth's surface somehow copied the creation of biomolecules in living organisms. Choice D is incorrect. In this context, "exploited" would mean used or took advantage of, and it isn't clear what it would mean to say that the presence of water—the fact of water being present—on early Earth's surface somehow took advantage of a biomolecular process occurring in living organisms.

Question ID: 85083d4d

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

Disproving the common misconception of Native art as _____, the painters whose work appears in the collection at the National Museum of the American Indian employ a range of styles. There are artists working in the traditional arts of their specific tribal communities, artists working in European modernist or American abstract expressionist art traditions, and artists blending various traditions into something wholly new.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. uncontroversial

B. individualistic

C. theoretical

D. homogeneous

Correct Answer: D

Rationale

Choice D is the best answer because it most logically completes the text's discussion of the art at the National Museum of the American Indian. In this context, "homogenous" means uniform or highly similar. The text explains that the painters whose works are included in this museum's collection employ an array of artistic styles, both Native and non-Native, traditional and new. Given this high degree of stylistic diversity, it is a misconception that Native art is uniform, or homogenous.

Choice A is incorrect because the text doesn't consider whether Native art is controversial, or causes disagreement or discussion; instead, the text discusses the stylistic diversity of the collection of the National Museum of the American Indian. Choice B is incorrect. Although the text indicates that some of the artists whose work is represented in the collection of the National Museum of the American Indian blend various artistic traditions into highly individual styles of their own, this is not the primary focus of the text. Instead, the text is concerned with how Native art is often mistakenly perceived as uniform, when in fact it is stylistically diverse. Choice C is incorrect because the text never implies that people mistakenly conceive of Native art as theoretical, or concerned with philosophical or abstract issues; instead, the text's discussion of Native art is framed around this art's stylistic diversity versus the misconception of it as homogenous.

Question ID: dc234d74

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

The recently observed gamma ray burst GRB 230307A lasted for 200 seconds, _____ for a burst generated by the merger of neutron stars. Bursts caused by neutron mergers typically last fewer than 2 seconds.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. a coincidence

B. a reprieve

C. an incident

D. an oddity

Correct Answer: D

Rationale

Choice D is the best answer because it most logically completes the text's discussion of the duration of gamma ray burst GRB 230307A. In this context, "an oddity" is something that is odd or unusual. The text explains that the burst lasted for 200 seconds and that other bursts generated by neutron mergers have usually lasted fewer than 2 seconds. In other words, the duration of gamma ray burst GRB 230307A was unusual.

Choice A is incorrect because the text focuses on a difference between the duration of gamma ray burst GRB 230307A and the typical duration of bursts caused by neutron mergers, not "a coincidence," or a point of correspondence, between them; the text indicates that GRB 230307A lasted much longer than what is typical of other bursts. Choice B is incorrect. In this context, "a reprieve" would be either a temporary relief from something or a delay of a punishment, neither of which would make sense as something that the duration of a gamma ray burst could provide to the burst itself. Choice C is incorrect. Although it would make sense to refer to gamma ray burst GRB 230307A itself as "an incident," or a thing that occurred, the missing word describes the duration of the burst, and it doesn't make much sense to describe a length of time as an incident. Further, the sentence emphasizes that the burst's duration was very unusual, not simply that the burst occurred.

Question ID: 35fd0eb4

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

The discoverers of the minor planet 1227 Geranium named it after the plant genus that includes cranesbills. Most of the recently discovered minor planets, however, are given only an identification number, largely due to there being over 500,000 such bodies known at present, which makes the already challenging task of finding a unique name for each nearly _____.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. insurmountable

B. feasible

C. substantial

D. unnecessary

Correct Answer: A

Rationale

Choice A is the best answer because it most logically completes the text's discussion of the difficulty in naming a large number of minor planets. In this context, "insurmountable" means impossible to overcome or too difficult to solve. The text establishes that coming up with distinct names for minor planets is already a difficult task that has become even more challenging because there are now more than 500,000 known minor planets. The logical conclusion is that finding unique names for such a vast number of celestial objects has become virtually impossible—or insurmountable—which explains why the majority of recently discovered minor planets receive only identification numbers instead of proper names.

Choice B is incorrect because "feasible" means possible to do or achieve, which would contradict the logic of the text. The text indicates that the task of naming minor planets has become more difficult because of their large number. The text then explains that this is why most new discoveries receive only identification numbers. If the task were feasible, there would be no reason to abandon the practice of giving proper names to minor planets in favor of using only numbers. Choice C is incorrect because "substantial" means considerable in size, amount, or importance. While the text does suggest that naming all minor planets would be a significant undertaking, describing the task as substantial wouldn't logically explain why the naming practice has been largely abandoned in favor of using only identification numbers. The text suggests that the task has become virtually impossible (insurmountable), not merely large or significant. Choice D is incorrect because "unnecessary," which means not needed, would suggest that giving proper names to minor planets serves no purpose. However, the text doesn't question the value or purpose of naming minor planets; rather, it explains that the sheer number of discoveries has made the already challenging naming task nearly impossible to complete. The text provides an example of a named minor planet (1227 Geranium), indicating that naming has been considered worthwhile but has become impractical because of the volume.

Question ID: fce80a36

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

In 2008 a complete set of ancient *pessoi* (glass game pieces) was uncovered from beneath a paving stone in modern-day Israel. Due to their small size, *pessoi* were easily misplaced, making a whole set a rare find. This has led some experts to suggest that the set may have been buried intentionally; however, without clear evidence, archaeologists are left to _____ what happened.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. speculate about

B. dismiss

C. expand on

D. catalog

Correct Answer: A

Rationale

Choice A is the best answer. "Speculate" means "to form a theory or guess without any clear evidence." This makes sense because, due to the lack of "clear evidence," the archaeologists can only guess how the *pessoi* set might have come to be there.

Choice B is incorrect. "Dismiss" can mean "send away" or "treat as unworthy of consideration." The text implies that the archaeologists are trying to figure out the truth—they wouldn't "dismiss" what really happened. Choice C is incorrect. "Expand on" means "give more details about," but there aren't any details to give. Without any "clear evidence," the archaeologists can't give any more details. Choice D is incorrect. "Catalog" means "carefully record" or "make a list of." However, there's no "clear evidence," so there's no real information to "catalog."

Question ID: d4e8662d

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

The percentage of US forest land that a 2023 federal report identified as being either mature or old growth exceeds other recent estimates. Given how little _____ there is among scientists regarding the scope of these categories, this discrepancy shouldn't be surprising: forest researchers regularly dispute one another's classifications.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. deliberation

B. vigilance

C. interest

D. consensus

Correct Answer: D

Rationale

Choice D is the best answer because it most logically completes the text's discussion of US forest land classifications. In this context, "consensus" means agreement. The text indicates that a percentage given in a US forest land report differs from other estimates and that this discrepancy isn't surprising, given that forest researchers regularly dispute one another's classifications of parts of US forest land as either mature or old growth. This context conveys that there is little agreement when it comes to these categories.

Choice A is incorrect because the text states that there is often dispute among forest researchers about classifications of US forest land as either mature or old growth, which directly indicates that when it comes to these categories, there is much "deliberation," or discussion and consideration, not little deliberation. Choice B is incorrect because the text indicates that there is often dispute among forest researchers about classifications of US forest land as either mature or old growth; this doesn't imply that there is little "vigilance," or careful attention, among researchers when it comes to these categories but rather conveys that researchers do pay attention to forest land classifications and question one another's decisions. Choice C is incorrect because the text indicates that there is often dispute among forest researchers about classifications of US forest land as either mature or old growth; this doesn't imply that there is little "interest," or concern, among researchers when it comes to these categories but rather conveys that researchers are concerned with forest land classifications and pay attention to one another's classifications.

Question ID: e37b9e34

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

Some researchers believe that the genes that enable groundhogs and certain other mammals to hibernate through the winter by slowing their breathing and heart rates and lowering their body temperature may be _____ in humans: present yet having essentially no effect on our bodily processes.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. decisive

B. lacking

C. variable

D. dormant

Correct Answer: D

Rationale

Choice D is the best answer because it logically completes the text's discussion about genes related to hibernation. In this context, "dormant" means inactive. The text explains that the same genes that enable certain nonhuman mammal species to hibernate during the winter by altering their bodily processes are also found in our species but have "essentially no effect" on humans' bodily processes. In other words, these genes don't function in humans.

Choice A is incorrect because in this context, "decisive" means has the power to affect the outcome of something, but the text states that genes related to hibernation are instead inactive in humans—that is, the genes don't affect humans' bodily processes, although they are present in their bodies. Choice B is incorrect because in this context, "lacking" means missing, but the text states that the genes are present in humans, though inactive. Choice C is incorrect because "variable" means characterized by the potential to change, but the text indicates that these genes don't change in their effect on humans' bodily processes; instead, the genes are consistently inactive in humans.

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

Handedness, a preferential use of either the right or left hand, typically is easy to observe in humans. Because this trait is present but less _____ in many other animals, animal-behavior researchers often employ tasks specially designed to reveal individual animals' preferences for a certain hand or paw.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. recognizable

B. intriguing

C. significant

D. useful

Correct Answer: A

Rationale

Choice A is the best answer because it most logically completes the text's discussion about handedness in animals. As used in this context, "recognizable" means apparent or identifiable. The text indicates that handedness is "easy to observe in humans," but that animal-behavior researchers use special tasks to determine handedness in other animals. This context and the use of "less" before the blank indicate that compared with handedness in humans, handedness in other animals is less recognizable.

Choice B is incorrect because there's nothing in the text to suggest that handedness is less "intriguing," or fascinating, in nonhuman animals than it is in humans. The text focuses on how easy it is to observe handedness in humans as compared with other animals; the text doesn't suggest that handedness is more fascinating in humans. Choice C is incorrect because there's nothing in the text to suggest that handedness is less "significant," or important or meaningful, in nonhuman animals than it is in humans. The text focuses on how easy it is to observe handedness in humans as compared with other animals; the text doesn't suggest that handedness is more significant in humans. Choice D is incorrect because "useful," or functional or helpful, wouldn't make sense in context. The text focuses on the ease with which researchers can determine whether an animal or person is right- or left-handed, not on how useful handedness in nonhuman animals is compared with handedness in humans.

Question ID: 62a18353

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

The following text is adapted from Zora Neale Hurston's 1921 short story "John Redding Goes to Sea." John wants to travel far beyond the village where he lives near his mother, Matty.

> [John] had on several occasions attempted to reconcile his mother to the notion, but found it a difficult task. Matty always took refuge in self-pity and tears. Her son's desires were incomprehensible to her, that was all.

As used in the text, what does the phrase "reconcile his mother to" most nearly mean?

Answer

A. Get his mother to accept

B. Get his mother to apologize for

C. Get his mother to match

D. Get his mother to reunite with

Correct Answer: A

Rationale

Choice A is the best answer. The expression "reconcile to" means "to cause (a person) to accept something difficult or disagreeable." The text suggests that John wants his mother to accept his desire to travel, even though she doesn't like that idea.

Choice B is incorrect. This doesn't make sense. John doesn't want his mother to apologize for his own desire to travel—he wants her to accept his desire to travel. Choice C is incorrect. The text doesn't suggest that John wants his mother to match his desire to travel. Rather, he wants her to accept his desire to travel even though she doesn't like it. Choice D is incorrect. This is tempting, because it seems to pick up on the idea of people "reconciling" after a fight, but it actually doesn't make sense. The text never suggests that John's mother was "united with" the idea of him traveling in the past—if anything, it seems like she's always been against it. Besides, it would be strange to say that a person "reunites with" a notion.

Question ID: 1374a9fa

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

Austin McCoy has argued that historians have tended to _____ rank-and-file workers in analyses of changes in organized labor in the United States in the decades following the Second World War, presenting political, business, and labor leaders as the major actors and ordinary workers as nearly devoid of agency.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. epitomize

B. marginalize

C. extol

D. substantiate

Correct Answer: B

Rationale

Choice B is the best answer because it most logically completes the text's discussion of how historians have treated rank-and-file (ordinary) workers in their analyses. In this context, "marginalize" means treat as unimportant or relatively powerless within a group or society. The text explains that according to Austin McCoy, historians have tended to treat "political, business, and labor leaders" as the "major actors" involved in making changes in organized labor in the period after the Second World War. By emphasizing the contributions of these leaders, historians have in effect minimized the contributions of ordinary workers, treating them as relatively unimportant and "nearly devoid of agency," thereby marginalizing them.

Choice A is incorrect. In this context, "epitomize" would mean either serve as an ideal example of something or make into an example of something, neither of which would make sense. In stating that historians have tended to characterize political, business, and labor leaders as the primary actors responsible for changes in the post-Second World War labor movement in a manner that minimizes the influence of ordinary workers, the text suggests that historians have tended to present ordinary workers as unimportant to or uninfluential within the movement, not that historians themselves serve as examples of ordinary workers, or that historians in their analyses have made ordinary workers into examples of the changes that occurred. Choice C is incorrect because in this context, "extol" would mean praise highly or glorify. The text states that historians have tended to present ordinary workers as being "nearly devoid of agency," thereby minimizing their importance. It therefore wouldn't make sense to say that in doing so, historians have tended to praise or glorify them. Choice D is incorrect because "substantiate" would mean verify with evidence, and nothing in the text suggests that historians have verified rank-and-file workers or their contributions in their analyses. If anything, the text suggests the opposite, implying that by minimizing workers' agency in organized labor, historians have likely overlooked evidence demonstrating their influence.

Question ID: cd2ce51f

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

Like the 1945 play it reimagines—Federico García Lorca's *The House of Bernarda Alba*—Marcus Gardley's 2014 play *The House That Will Not Stand* prominently features women. In both plays, the all-female cast _____ an array of female characters, including a strong mother and several daughters dealing with individual struggles.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. engulfs

B. encourages

C. comprises

D. provokes

Correct Answer: C

Rationale

Choice C is the best answer because it most logically completes the text's discussion of Gardley's play. In this context, "comprises" means constitutes or makes up the totality of, and the text indicates that *The House That Will Not Stand* had an "all-female cast" that stands in some relationship to "an array of female characters" in the play. Because all cast members are female, the characters must be played by these female cast members; therefore the cast constitutes, or comprises, the collection of characters.

Choice A is incorrect. In this context, "engulfs" would mean encloses or overwhelms, and although it is fairly common to describe an actor as embodying (or personifying realistically) a character, there is nothing in the text to suggest that the cast members enclosed or overwhelmed the characters they played. Choice B is incorrect because in this context, "encourages" would mean inspires with courage or hope. Although the text does mention "a strong mother and several daughters dealing with individual struggles," which might suggest that there are moments of encouragement among the characters during the play, there is nothing to suggest that the cast members encouraged the characters they portrayed. Choice D is incorrect because, in this context, "provokes" would mean instigates or incites to anger. Nothing in the text addresses provocation or what it might mean for actors to provoke the characters they are playing.

Question ID: b4c6cff6

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

The following text is adapted from Karel Čapek's 1920 play *R.U.R. (Rossum's Universal Robots*), translated by Paul Selver and Nigel Playfair in 1923. Fabry and Busman are telling Miss Glory why their company manufactures robots.

> FABRY: One Robot can replace two and a half *workmen*. The human machine, Miss Glory, was terribly *imperfect*. It had to be removed sooner or later.
>
> BUSMAN: It was too expensive.
>
> FABRY: It was not *effective*. It no longer answers the requirements of *modern engineering*. Nature has no idea of keeping pace with *modern labor*.

As used in the text, what does the word "answers" most nearly mean?

Answer

A. Explains

B. Rebuts

C. Defends

D. Fulfills

Correct Answer: D

Rationale

Choice D is the best answer because as used in the text, "answers" most nearly means fulfills. In the text, Fabry and Busman claim that the robots manufactured by their company are more efficient than human workers, which they refer to as "the human machine." Fabry observes that the human machine "no longer answers the requirements of *modern engineering*." That is, human workers are incapable of meeting the rigorous needs of modern, industrialized workplaces.

Choice A is incorrect. Although in some contexts "answers" can mean explains, it doesn't have that meaning in this context because the topic under discussion is human beings' inability to perform labor efficiently, not their inability to engage in discussion or explanation. Choice B is incorrect. Although in some contexts "answers" can mean rebuts, or proves a claim or argument to be false, it wouldn't make sense to speak of proving requirements to be false; requirements might or might not be reasonable, but they can't be verified as truthful or untruthful, as claims or accusations can. Choice C is incorrect. Although in some contexts, "answers" can mean defends against criticism, or justifies, it doesn't have that meaning in this context because the opinion that Fabry expresses is that human workers can no longer fulfill the requirements of modern workplaces, not that they have ceased to justify those requirements or to defend them against criticism; indeed, there is no suggestion in the text that workers ever defended those requirements.

Question ID: d8d1ecaa

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

Business researcher Melanie Brucks and colleagues found that remote video conference meetings may be less conducive to brainstorming than in-person meetings are. The researchers suspect that video meeting participants are focused on staring at the speaker on the screen and don't allow their eyes or mind to wander as much, which may ultimately _____ creativity.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. recommend

B. criticize

C. impede

D. construct

Correct Answer: C

Rationale

Choice C is the best answer. The first sentence tells us that video meetings are "less conducive to" (meaning less good for) brainstorming. This suggests that the video meeting participants' focus is bad for their creativity. "Impede" means "delay" or "prevent," which works perfectly in this context.

Choice A is incorrect. This choice is too positive to fit the context. The first sentence tells us that video meetings are "less conducive to" (meaning less good for) brainstorming. This suggests that the video meeting participants' focus is bad for their creativity. Choice B is incorrect. This choice doesn't make sense. The participants' intense focus on the screen is the subject of the missing verb. It wouldn't make sense to say that their over-focusing "criticizes" their creativity. Choice D is incorrect. "Construct" means "build" or "make," which is too positive to fit the context. The first sentence tells us that video meetings are "less conducive to" (meaning less good for) brainstorming. This suggests that the video meeting participants' focus is bad for their creativity.

Question ID: e56b66e5

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

Set in a world where science fiction tropes exist as everyday realities, Charles Yu's 2010 novel *How to Live Safely in a Science Fictional Universe* traces a time traveler's quest to find his father. Because the journey at the novel's center is so _____, with the protagonist ricocheting chaotically across time, the reader often wonders whether the pair will ever be reunited.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. haphazard

B. premeditated

C. inspirational

D. fruitless

Correct Answer: A

Rationale

Choice A is the best answer because it most logically completes the text's discussion of Yu's novel. In this context, "haphazard" means marked by a lack of plan or order. The text indicates that the quest featured in the novel, which involves the protagonist bouncing across time, is chaotic and causes the reader to often wonder what will happen. This context suggests that the protagonist's journey seems to be marked by a lack of order.

Choice B is incorrect because the text indicates that the journey featured in Yu's novel involves a character "ricocheting chaotically," or bouncing in a disordered way, across time and causes the reader to often wonder what will happen. It wouldn't make sense to say that a chaotic journey seems "premeditated," or characterized by forethought and planning. Choice C is incorrect because the text doesn't give any indication that readers regard the journey in Yu's novel as "inspirational," or as causing extraordinarily creative or brilliant thoughts or actions; instead, the text focuses on the idea that the protagonist's journey is chaotic, or disordered, and doesn't give readers a clear sense of what will happen. Choice D is incorrect. Rather than suggesting that the journey featured in Yu's novel is "fruitless," or has an unsuccessful outcome, the text focuses on the idea that while reading about the protagonist's chaotic movements across time, readers are often unsure of what will happen—that is, they don't know whether the protagonist will be successful in finding his father.

Question ID: bce627d9

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

Mineralogical differences are detectable in samples collected from two locations on the near-Earth asteroid Ryugu, but such differences may not indicate substantial compositional variations in the asteroid. Cosmochemist Kazuhide Nagashima and colleagues note that at the small scale of the samples, the distribution of minerals is unlikely to be _____.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. neglected

B. redundant

C. ongoing

D. uniform

Correct Answer: D

Rationale

Choice D is the best answer. The text tells us that the samples are too "small scale" to reflect the composition of the asteroid, which probably doesn't show the same variation on a large scale. This suggests that the mineral composition of the samples are unlikely to be exactly the same from sample to sample.

Choice A is incorrect. "Neglected" means "suffering a lack of proper care" or "abandoned," which doesn't work here. The text never suggests that the distribution of minerals in the samples would be neglected, so this statement doesn't logically follow. Choice B is incorrect. "Redundant" means "not or no longer useful or needed," which is too strong. The text doesn't suggest that the variation between the samples isn't a useful finding at all—just that we can't assume that the large-scale composition of the asteroid will show the same variation. But the composition of the samples might be useful for something else. Choice C is incorrect. "Ongoing" means "still in progress," which doesn't make sense: the distribution of minerals in a sample can't be "ongoing."

Question ID: 1fbf276a

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

Interruptions in the supply chain for microchips used in personal electronics have challenged an economist's assertion that retailers can expect robust growth in sales of those devices in the coming months. The delays are unlikely to _____ her projection entirely but will almost certainly extend its time frame.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. dispute

B. withdraw

C. underscore

D. invalidate

Correct Answer: D

Rationale

Choice D is the best answer because it most logically completes the text's discussion of the economist's claim about sales of personal electronic devices. In this context, "invalidate" most nearly means nullify or make invalid. The text indicates that interruptions in the supply of microchips for personal electronics "have challenged" the economist's claim that sales of personal electronics will show strong growth in the coming months. The text goes on to clarify the effect of the delays on the economist's projection, stating that the delays are very likely to extend the time frame over which the projected growth in sales will occur. This context suggests that the delays are unlikely to invalidate the economist's projection entirely—the delays will probably alter the time frame of the projection, not nullify it or make it invalid.

Choice A is incorrect because saying that the delays are unlikely to "dispute," or argue against, the economist's projection wouldn't make sense. Since the delays are an inanimate circumstance, they couldn't argue against a prediction about the sales of personal electronics. Choice B is incorrect because saying that the delays are unlikely to "withdraw," or remove from consideration, the economist's projection wouldn't make sense. Although the economist could withdraw her projection because of the delays, the delays themselves couldn't withdraw her projection since they're an inanimate circumstance and thus can't choose to remove something from consideration. Choice C is incorrect because there's nothing in the text to suggest that the delays will "underscore," or emphasize, the economist's projection. Instead, the text suggests that the delays are likely to extend the time frame of the economist's projection but not to undermine the projection entirely.

Question ID: f4166aae

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

In addition to being an accomplished psychologist himself, Francis Cecil Sumner was a _____ increasing the opportunity for Black students to study psychology, helping to found the psychology department at Howard University, a historically Black university, in 1930.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. proponent of

B. supplement to

C. beneficiary of

D. distraction for

Correct Answer: A

Rationale

Choice A is the best answer because it most logically completes the text's discussion of Francis Cecil Sumner. As used in this context, "proponent of" means supporter of. The text says that Sumner helped to found the psychology department at historically Black Howard University in 1930. This is evidence that Sumner supported increasing the opportunity for Black students to study psychology.

Choice B is incorrect because the phrase "supplement to," or addition to, wouldn't make sense in context. The text discusses Sumner's efforts to increase the number of Black psychology students, but it doesn't make sense to describe him as an addition to his efforts. Choice C is incorrect because Sumner was already an accomplished psychologist himself when he helped to found the Howard University psychology department. While Black students were the beneficiaries of his efforts—that is, they received help because of his efforts—it wouldn't make sense in this context to describe Sumner as a "beneficiary of" opportunities, because he was the one doing the helping. Choice D is incorrect because founding a psychology department at Howard University wouldn't be a "distraction for" Sumner's aim to increase the opportunity for Black students to study psychology—that is, it wouldn't be something that draws Sumner's attention away from that goal, but rather the opposite.

Question ID: 1107e7dc

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

Economists often assert that countries looking to increase their reliance on solar energy should expand their capacity for storage; having an ample reserve of stored energy can mitigate the effects of _____ solar energy collection caused by unpredictable shifts in cloud cover and haze.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. developments of

B. fluctuations in

C. calibrations with

D. incentives for

Correct Answer: B

Rationale

Choice B is the best answer because it most logically completes the text's discussion of solar energy collection and storage. In this context, "fluctuations in" means irregular changes in. The text notes that economists recommend that countries that want to rely more on solar energy (energy captured from sunlight) should attempt to expand their storage capacity. The text goes on to explain that having a large amount of stored solar energy can lessen the negative effect of "unpredictable shifts in cloud cover and haze"—that is, unpredictable changes in environmental conditions that at times limit sunlight. This context suggests that having ample solar energy stored and ready to use can mitigate the issue of fluctuations in solar energy collection caused by irregular patterns of sunlight availability.

Choice A is incorrect because in this context, "developments of solar energy collection" would most clearly refer to the creation of ways to collect solar energy (energy captured from sunlight). The text focuses on collection and the idea that having stored energy can mitigate, or make less bad, the effects of a problem caused by unpredictable changes that affect sunlight ("cloud cover and haze"); there's no reason to think that the creation of new collection methods would be viewed as a problem that would need to be mitigated. Choice C is incorrect because in this context, "calibrations with" would most clearly refer to precise adjustments for a particular purpose. The text focuses on the collection of solar energy (energy captured from sunlight) and the idea that having stored energy can mitigate, or make less bad, the effects of a problem caused by unpredictable changes that affect sunlight ("cloud cover and haze"); there's no reason to think that precision in something related to solar energy collection would be viewed as a problem that would need to be mitigated. Choice D is incorrect. The text focuses on the collection of solar energy (energy captured from sunlight) and the idea that having stored energy can mitigate, or make less bad, the effects of a problem caused by unpredictable changes that affect sunlight ("cloud cover and haze"); nothing in the text suggests that "incentives for," or rewards for, solar energy collection would be viewed as a problem that would need to be mitigated, especially in countries that want to rely more on solar energy than they already do.

Question ID: d7dccee7

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

In a 2019 study, Jeremy Gunawardena and colleagues found that the single-celled protozoan *Stentor roeseli* not only uses strategies to escape irritating stimuli but also switches strategies when one fails. This evidence of protozoans sophisticatedly "changing their minds" demonstrates that single-celled organisms may not be limited to _____ behaviors.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. aggressive

B. rudimentary

C. evolving

D. advantageous

Correct Answer: B

Rationale

Choice B is the best answer because it most logically completes the text's discussion of single-celled organism behavior. As used in this context, "rudimentary" means basic or unsophisticated. According to the text, a study of the single-celled protozoan *Stentor roeseli* showed that the organisms can switch strategies for escaping certain stimuli, "sophisticatedly 'changing their minds'" and using new strategies should other strategies fail. This context suggests that single-celled organisms may not be limited to behaviors that are basic or rudimentary, since the study showed that single-celled protozoans can respond complexly to irritating stimuli.

Choice A is incorrect because the text doesn't suggest that single-celled organisms may not be limited to behavior that is "aggressive," or threatening. Rather, the text suggests that single-celled organisms may not be limited to behaviors that are basic, since the study of *Stentor roeseli* showed that single-celled protozoans can respond complexly to irritating stimuli. Choice C is incorrect because the text doesn't suggest that single-celled organisms may not be limited to behavior that is "evolving," or advancing. Rather, the text suggests that single-celled organisms may not be limited to behaviors that are basic, since the study of *Stentor roeseli* showed that single-celled protozoans can respond complexly to irritating stimuli. Choice D is incorrect because the text doesn't suggest that single-celled organisms may not be limited to behavior that is "advantageous," or helpful. Rather, the text suggests that single-celled organisms may not be limited to behaviors that are basic, since the study of *Stentor roeseli* showed that single-celled protozoans can respond complexly to irritating stimuli.

Question ID: 6c64a8f3

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

Ecologist Exequiel Ezcurra and colleagues found that the inhabitants of the Mexica empire used natural landmarks to track time with a high degree of _____. By observing the sun's position in relation to various points on the mountains surrounding the Basin of Mexico, the Mexica were able to precisely identify the dates when significant events such as solstices occurred.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. precariousness

B. exactitude

C. resilience

D. inconspicuousness

Correct Answer: B

Rationale

Choice B is the best answer because it most logically completes the text's discussion of the method the inhabitants of the Mexica empire used to track time. In this context, "exactitude" means precision. The text indicates that the Mexica used the sun's position relative to various natural landmarks to track the passage of time, explaining that such methods allowed the Mexica to accurately determine the dates of important events such as solstices. This context supports the idea that the Mexica people were able to track time with a high degree of precision, or exactitude.

Choice A is incorrect because in this context "precariousness" would mean instability, and there's nothing in the text to suggest that the method used by the Mexica people to track time was unstable or produced unstable results. Rather, the text indicates that the method yielded precise results, allowing the Mexica to accurately determine the dates of significant events. Choice C is incorrect because in this context "resilience" would mean persistence, and there's nothing in the text to suggest that the Mexica worked stubbornly in spite of obstacles in order to track time. Choice D is incorrect because in this context "inconspicuousness" would mean discreetness, and there's nothing in the text to suggest that the Mexica wanted to track time without being noticed.

Question ID: 9c35759f

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

Novelist N. K. Jemisin declines to _____ the conventions of the science fiction genre in which she writes, and she has suggested that her readers appreciate her work precisely because of this willingness to thwart expectations and avoid formulaic plots and themes.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. question

B. react to

C. perceive

D. conform to

Correct Answer: D

Rationale

Choice D is the best answer because it most logically completes the text's discussion of Jemisin's writing. In this context, "conform to" means to act in accordance with something. The text suggests that in her science fiction writing, Jemisin's willingness to go against expectations and not use plots and themes that seem to follow a formula reflects how she treats the standard practices of the genre. This context conveys that Jemisin chooses not to act in accordance with those conventions.

Choice A is incorrect. In this context, "question" would mean doubt or object to. The text indicates that Jemisin is willing to go against expectations and not use formulaic plots and themes in her science fiction writing, suggesting that she may actually object to those conventions of the genre, not that she chooses not to question them. Choice B is incorrect because the text indicates that in her science fiction writing, Jemisin is willing to go against expectations and not use formulaic plots and themes. Rather than suggesting that Jemisin chooses not to "react to," or act in response to, the standard practices of the genre, this context suggests that she is acting in response to such conventions by deliberately avoiding them. Choice C is incorrect. In this context, "perceive" would mean become aware of or understand. The text indicates that in her science fiction writing, Jemisin is willing to go against expectations and not use formulaic plots and themes. This context conveys that Jemisin is aware of and deliberately avoids those conventions of the genre, not that she chooses not to be aware of them.

Question ID: 6a1194e8

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

Rydra Wong, the protagonist of Samuel R. Delany's 1966 novel *Babel-17*, is a poet, an occupation which, in Delany's work, is not _____: nearly a dozen of the characters that populate his novels are poets or writers.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. infallible

B. atypical

C. lucrative

D. tedious

Correct Answer: B

Rationale

Choice B is the best answer because it most logically completes the text's discussion of Samuel R. Delany's character Rydra Wong. As used in this context, "atypical" would mean unrepresentative or not common. The text indicates that Wong is one of "nearly a dozen" characters in Delany's novels who are poets or writers. This context conveys that being a poet isn't an atypical occupation for a character in one of Delany's works.

Choice A is incorrect because "infallible" means to be accurate or without fault, which wouldn't make sense in context. The text focuses on the fact that Delany has written many characters who are poets and writers. This context suggests that the occupation isn't atypical for Delany, not that the occupation isn't infallible, or problematic. Choice C is incorrect because "lucrative" means to be profitable, which wouldn't make sense in context. If writing poet characters weren't profitable, it wouldn't be logical to explain this by citing that Delany gave many of his characters the same occupation. Choice D is incorrect because "tedious" means to be boring, which wouldn't make sense in context. The text focuses on the fact that Delany has written many characters who are poets and writers. This context suggests that the occupation isn't atypical for Delany, not that the occupation isn't tedious.

Question ID: 490b205f

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

In editor Lisa Yaszek's introduction to her anthology *The Future Is Female! More Classic Science Fiction Stories by Women*, Yaszek identifies an increasing sense of _____ feminist mode of writing in the 1970s, in contrast to many woman-authored science fiction stories of the 1920s to 1960s whose politics were less deliberately signaled.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. a prudently

B. an overtly

C. a cordially

D. an inadvertently

Correct Answer: B

Rationale

Choice B is the best answer because it most logically completes the text's discussion of Yaszek's introduction to her science fiction anthology. In this context "overtly" means openly or without concealment. The text draws a contrast between the lack of "deliberately signaled" political themes in woman-authored science fiction from the 1920s to the 1960s and what Yaszek notes about woman-authored science fiction from the 1970s. This contrast implies that the work from the 1970s did clearly reflect feminist political themes. In other words, the text indicates that unlike women who wrote science fiction in the 1920s to the 1960s, the women who wrote science fiction in the 1970s expressed overtly feminist themes.

Choice A is incorrect. In this context "prudently" would mean cautiously, which might plausibly describe the women who wrote science fiction from the 1920s to the 1960s, in that they tended to avoid revealing their political views; however, the text contrasts these authors with the women writing science fiction in the 1970s, thereby suggesting that the authors writing in the 1970s were not restrained in that way. Choice C is incorrect because in this context "cordially" would mean politely, and nothing in the text indicates that politeness was a significant factor for women writing science fiction either from the 1920s to the 1960s or in the 1970s. The text draws a contrast between the lack of "deliberately signaled" political themes in woman-authored science fiction from the 1920s to the 1960s and what Yaszek notes about woman-authored science fiction from the 1970s. It's unclear how "less deliberately signaled" politics and an increasing sense of politeness toward feminism would constitute a meaningful contrast. Choice D is incorrect because in this context, "inadvertently" would mean unintentionally, and nothing in the text suggests that Yaszek thought the feminist elements of the woman-authored science fiction from the 1970s arose without deliberate effort.

Question ID: 94eb800d

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	Medium

Question

For a 2020 exhibition, photographer and neurobiologist Okunola Jeyifous _____ a series of new images based on a series of alphabet posters from the 1970s known as the “Black ABCs,” which featured Black children from Chicago. Jeyifous photographed the now-adult models and layered the photos over magnified images of the models’ cells, resulting in what he called “micro and macro portraiture.”

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. validated

B. created

C. challenged

D. restored

Correct Answer: B

Rationale

Choice B is the best answer because it most logically and precisely completes the text’s discussion of Jeyifous’s series of images for the 2020 exhibition. In this context, “created” means produced. The text explains that Jeyifous, a photographer and neurobiologist, photographed adults who had appeared as children in posters from the 1970s, then combined those photographs with magnified images of the adults’ cells—a process that resulted in what he called “micro and macro portraiture.” This context suggests that Jeyifous drew on his dual interests in photography and neurobiology to produce the images for display in the exhibition.

Choice A is incorrect because there’s nothing in the text to suggest that Jeyifous “validated,” or corroborated, the series of images. The text describes Jeyifous’s process for composing the images but doesn’t describe Jeyifous making an effort to evaluate the images for their artistic or scientific legitimacy. Choice C is incorrect because there’s nothing in the text to suggest that Jeyifous “challenged,” or disputed, an aspect of the images; rather, the focus of the text is on the inspiration behind the images and the method Jeyifous used to achieve them. Choice D is incorrect because the text indicates that Jeyifous made the images himself using a combination of photography and magnified pictures of cells, not that he “restored,” or reconditioned, the images from a deteriorated state.

Question

In 1776, the United States sent Benjamin Franklin to France to try to win the country's support in the United States' fight for independence from Great Britain. Franklin was very popular in France. This _____ surely helped him to convince France to assist the United States.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. thoughtfulness

B. esteem

C. controversy

D. sincerity

Correct Answer: B

Rationale

Choice B is the best answer because it most logically completes the text's discussion of Benjamin Franklin's popularity in France. In this context, "esteem" means high regard. The text indicates that Franklin was very popular, or highly regarded, in France, where he sought the country's support for the United States in its fight for independence, and indicates that his status helped him achieve his goal. The context therefore suggests that being held in high regard by the people likely helped Franklin convince France to help the United States.

Choice A is incorrect because the text directly indicates that it was Franklin's popularity that likely helped him convince France to help the United States, not his "thoughtfulness" (which in this context would mean either his careful reasoning and attention or his kind consideration of others' needs). Choice C is incorrect because the text doesn't suggest that there was any "controversy," or dispute, about Franklin's presence in France; instead, the text states that Franklin was very popular in France and directly indicates that this status likely helped him convince France to help the United States. Choice D is incorrect because the text directly indicates that it was Franklin's popularity that likely helped him convince France to help the United States, not his "sincerity," or his honesty.

Question

Steiger Butte Drum, a family ensemble from the Klamath Tribes of the Pacific Northwest, collaborated with composer Michael Gordon to create *Natural History*, a work featuring traditional drumming and vocals alongside an orchestra and chorus. Steiger Butte Drum's participation is _____ to the piece: members not only contributed to its composition but also must be included in all performances.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. tangential

B. subsequent

C. analogous

D. integral

Correct Answer: D

Rationale

Choice D is the best answer because it most logically completes the text's discussion of Steiger Butte Drum's contributions to the musical work *Natural History*. In this context, "integral" means essential or necessary to the whole. The text states that Steiger Butte Drum not only took part in the piece's creation, collaborating with composer Michael Gordon on it, but also "must be included in all performances." This context clearly indicates that the ensemble's participation is essential, or integral, to the piece, both in its creation and its performance.

Choice A is incorrect because in this context, "tangential" would mean peripheral or of little relevance to something. The text emphasizes the importance of Steiger Butte Drum's involvement in both the composition and performance of *Natural History*, indicating their role is central, not tangential. Choice B is incorrect because in this context, "subsequent" would mean following after or coming later than something else. The text doesn't establish a temporal sequence where the participation of Steiger Butte Drum followed after the creation of *Natural History*; rather, it indicates that the ensemble was involved with the piece from the beginning, having worked with Michael Gordon during the creation process. Choice C is incorrect because in this context, "analogous" would mean similar or comparable to something else, and the text doesn't compare Steiger Butte Drum's participation in the creation and performances of *Natural History* to anything else; instead, it describes the nature and importance of the ensemble's involvement.

Question

Birds sing to communicate over potentially great distances. For this reason, many researchers believe that birds in densely vegetated habitats generally sing at lower frequencies than birds living in comparatively sparse habitats, since dense vegetation tends to _____ the distance that high-frequency sounds can travel.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. exceed

B. diminish

C. encompass

D. conceal

Correct Answer: B

Rationale

Choice B is the best answer because it most logically completes the text's discussion of birdsong. In this context, "diminish" means reduce or lessen. The text establishes that birds sing to communicate over potentially large distances and that researchers believe that birds that live in densely vegetated habitats sing at lower frequencies than birds that live in comparatively sparsely vegetated habitats. The text then explains that researchers hold this belief due to some effect of dense vegetation on the distance that high-frequency sounds can travel. If birds sing to communicate over long distances, it would be logical to conclude that researchers believe that birds in densely vegetated habitats sing at lower frequencies than birds in relatively sparse habitats do because dense vegetation diminishes the distance that high-frequency sounds can travel.

Choice A is incorrect because nothing in the text suggests that dense vegetation can "exceed," or surpass or go beyond, the distance that high-frequency sounds can travel. The text suggests that dense vegetation reduces the distance that high-frequency sounds can travel, not that dense vegetation goes farther than that distance. Choice C is incorrect because it would not be sensible to say that dense vegetation can "encompass," or enclose or encircle, the distance that high-frequency sounds can travel. The distance that sounds can travel is not an object that can be enclosed or encircled by vegetation. Choice D is incorrect because there is no information in the text indicating that dense vegetation can "conceal," or hide or keep from being observed, the distance that high-frequency sounds travel. Instead, the text suggests that dense vegetation reduces the distance that high-frequency sounds can travel.

Question

Domesticated thousands of years ago by Indigenous people in South America, cacao, the plant from which chocolate is made, deviates structurally from the wild plant it is descended from. Maize (corn), another crop domesticated by Indigenous Americans, shows so little resemblance to any wild plant that genetic research was necessary to _____ teosinte grass as its ancestor.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. acquire

B. develop

C. attract

D. confirm

Correct Answer: D

Rationale

Choice D is the best answer because it most logically completes the text's discussion of the identification of maize's wild ancestor. In this context, to "confirm" means to establish the truth or correctness of something. The text explains that maize "shows so little resemblance to any wild plant that genetic research was necessary" to establish its ancestry, which was ultimately traced to teosinte grass. This context conveys the idea that scientific verification was required to establish an ancestral relationship with certainty—that is, to confirm teosinte grass as maize's ancestor.

Choice A is incorrect because to "acquire" means to obtain or gain possession of something. Although their research likely required scientists to acquire samples of maize and teosinte grass, the text does not suggest that this was the ultimate goal of their work, which instead probed the connection between the two plants. Choice B is incorrect because to "develop" means to create something or to promote the growth of something, and the ancestral relationship between teosinte grass and maize already existed as a biological fact in the deep past, which scientists then verified through research; because this relationship already existed, the scientists can't be said to have either created it or encouraged its growth. Choice C is incorrect because to "attract" means to entice something or to bring about a relationship or connection between two things, while the ancestral relationship between teosinte grass and maize already existed as a biological fact; rather than bringing about the relationship between the two plants, the scientists instead verified the prior existence of it.

Question

Diego Velázquez was the leading artist in the court of King Philip IV of Spain during the seventeenth century, but his influence was hardly _____ Spain: realist and impressionist painters around the world employed his techniques and echoed elements of his style.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. derived from

B. recognized in

C. confined to

D. repressed by

Correct Answer: C

Rationale

Choice C is the best answer because it most logically completes the discussion of the artist Diego Velázquez's influence outside Spain. As used in this context, "confined to" means restricted to. The text says that Velázquez was the leading artist in the Spanish court during the seventeenth century, but it also notes that other painters around the world were influenced by his techniques and style. Thus, Velázquez's influence was hardly (or almost not) confined to, or restricted to, Spain.

Choice A is incorrect because if Velázquez was a leading artist in Spain, it doesn't make logical sense to claim that his influence was hardly (or almost not) derived from, or obtained from, Spain. Moreover, the other painters around the world who employed Velázquez's techniques would by definition be influenced by Spanish style. Choice B is incorrect because if Velázquez was a leading artist in the court of King Philip IV of Spain, then his influence must have been widely recognized, or acknowledged, rather than being hardly (or almost not) recognized. Choice D is incorrect because the text gives no indication that deliberately limiting Velázquez's influence outside Spain was ever considered by anyone. Thus, even if it is true that his influence was not repressed, or restrained, it doesn't make logical sense to say so in this context.

Question

The artisans of the Igun Eronmwon guild in Benin City, Nigeria, typically _____ the bronze- and brass-casting techniques that have been passed down through their families since the thirteenth century, but they don't strictly observe every tradition; for example, guild members now use air-conditioning motors instead of handheld bellows to help heat their forges.

Which choice completes the text with the most logical and precise word or phrase?

Answer

A. experiment with

B. adhere to

C. improve on

D. grapple with

Correct Answer: B

Rationale

Choice B is the best answer because it most logically completes the text's discussion of bronze- and brass-casting techniques used by the Igun Eronmwon guild. In this context "adhere to" would mean to act in accordance with. The text states that although members of the Igun Eronmwon guild typically do something with techniques that have been passed down since the thirteenth century, they "don't strictly observe every tradition." By establishing a contrast with not always following traditions, the context suggests that guild members do typically adhere to traditional techniques.

Choice A is incorrect because in this context "experiment with" would mean to do something new with. Although using motors rather than manual bellows is presented as a new approach, the text establishes a contrast between what the guild members typically do with techniques that have been passed down over centuries and the idea that the members "don't strictly observe every tradition." The phrase "experiment with" wouldn't support the contrast because regularly trying new things with the techniques would be an example of not strictly following all traditions. Choice C is incorrect because in this context "improve on" would mean to make better. Although using motors rather than manual bellows might be an improved approach, the text establishes a contrast between what the guild members typically do with techniques that have been passed down over centuries and the idea that the members "don't strictly observe every tradition." The phrase "improve on" wouldn't support the contrast because regularly making changes to the techniques would be an example of not strictly following all traditions. Choice D is incorrect because in this context "grapple with" would mean to try hard to solve a difficult problem. Although bronze- and brass-casting are likely challenging tasks, nothing in the text suggests that the guild members have any particular difficulties with the techniques passed down since the thirteenth century.
