**Question**

While researching a topic, a student has taken the following notes:

- Sue is the nickname of a dinosaur fossil specimen housed at the Field Museum of Natural History.
- The Field Museum of Natural History is located in Chicago, Illinois.
- Sue is a member of the genus *Tyrannosaurus*.
- Big Mike is the nickname of a dinosaur fossil specimen housed at the Museum of the Rockies.
- The Museum of the Rockies is located in Bozeman, Montana.
- Big Mike is a member of the genus *Tyrannosaurus*.

The student wants to emphasize a similarity between the two specimens. Which choice most effectively uses relevant information from the notes to accomplish this goal?

**Answer**

A. The Field Museum of Natural History, where Sue is housed, is located in Chicago, Illinois.

B. Big Mike is the nickname of a *Tyrannosaurus* fossil specimen housed at the Museum of the Rockies in Bozeman, Montana.

C. The dinosaur fossil specimens Sue and Big Mike are both members of the genus *Tyrannosaurus*.

D. While Sue is housed at the Field Museum of Natural History, Big Mike is housed at the Museum of the Rockies.

**Correct Answer: C**

**Rationale**

Choice C is the best answer. The sentence emphasizes a similarity between the two specimens, noting that Sue and Big Mike are members of the same genus: *Tyrannosaurus*.

Choice A is incorrect. The sentence only provides information about where one of the specimens (Sue) can be found; it doesn't emphasize a similarity between the two specimens. Choice B is incorrect. The sentence only provides information about one specimen (Big Mike); it doesn't emphasize a similarity between the two specimens. Choice D is incorrect. The sentence contrasts the locations of Sue and Big Mike; it doesn't emphasize a similarity between the two specimens.

**Question**

While researching a topic, a student has taken the following notes:

- The Haber-Bosch process is an industrial process used to manufacture ammonia ($NH_3$).
- It was invented by chemists Fritz Haber and Carl Bosch in 1910.
- The process's primary reaction combines nitrogen ($N_2$) from the air with hydrogen ($H_2$).
- It requires an iron catalyst and high temperatures and pressures.
- Most of the ammonia produced by this process is used in fertilizers.

The student wants to provide an overview of the Haber-Bosch process. Which choice most effectively uses relevant information from the notes to accomplish this goal?

**Answer**

A. The Haber-Bosch process needs nitrogen, hydrogen, and an iron catalyst.

B. The Haber-Bosch process uses an iron catalyst along with high temperatures and pressures to manufacture ammonia from nitrogen and hydrogen.

C. Chemists Fritz Haber and Carl Bosch invented an industrial process to manufacture ammonia to be used in fertilizers.

D. In 1910, chemists Fritz Haber and Carl Bosch invented the Haber-Bosch process, which requires high temperatures and pressures.

**Correct Answer: B**

**Rationale**

Choice B is the best answer. The sentence provides an overview of the Haber-Bosch process, explaining that it uses an iron catalyst, high temperatures, and high pressures to manufacture ammonia from nitrogen and hydrogen.

Choice A is incorrect. While the sentence identifies some of the process's required components (nitrogen, hydrogen, and an iron catalyst), the overview is incomplete; it doesn't explain what the process does (produces ammonia) or mention the conditions needed for it to function (high temperatures and pressures). Choice C is incorrect. While the sentence indicates who invented the process (Fritz Haber and Carl Bosch) and that it produces ammonia, the overview is incomplete; it doesn't mention any of the necessary ingredients or conditions. Choice D is incorrect. While the sentence mentions the inventors of the process along with the required conditions (high temperatures and pressures), it doesn't explain that the process produces ammonia or indicate what components are needed.

**Question**

While researching a topic, a student has taken the following notes:

- The human body requires magnesium for over 300 essential processes.
- Magnesium is a mineral present in many foods.
- Peanuts contain 49 milligrams per ounce (mg/oz) of magnesium.
- Almonds contain 80 mg/oz.
- Chia seeds contain 150 mg/oz.

The student wants to identify which of the three foods has the highest magnesium content. Which choice most effectively uses relevant information from the notes to accomplish this goal?

**Answer**

A. At 80 mg/oz, almonds contain more magnesium than peanuts (49 mg/oz).

B. Chia seeds contain 150 mg/oz of magnesium, which is more than peanuts and almonds.

C. Magnesium is present in many foods, including peanuts, almonds, and chia seeds.

D. Peanuts contain 49 mg/oz of magnesium, a mineral the human body requires for over 300 essential processes.

**Correct Answer: B**

**Rationale**

Choice B is the best answer. The sentence identifies chia seeds as having the highest magnesium content of the three foods, noting that they contain 150 mg/oz, which is more than both peanuts and almonds.

Choice A is incorrect. The sentence compares the magnesium content of almonds and peanuts; it doesn't identify which of the three foods has the highest magnesium content. Choice C is incorrect. The sentence merely mentions the three foods; it doesn't identify which one has the highest magnesium content. Choice D is incorrect. The sentence identifies the magnesium content of peanuts; it doesn't identify which of the three foods has the highest magnesium content.

**Question**

While researching a topic, a student has taken the following notes:

- *Oracles of the Pink Universe* was a 2021 exhibition at the Denver Museum of Art in Colorado.
- It featured eight artworks by South African artist Simphiwe Ndzube.
- One of these works is a painting titled *Assertion of Will*.
- *Assertion of Will* depicts three standing figures.
- The figures wear clothing made of fabric pieces stitched to the painting's canvas.

The student wants to describe how fabric is used in *Assertion of Will*. Which choice most effectively uses relevant information from the notes to accomplish this goal?

**Answer**

A. In *Assertion of Will*, the figures' clothing is made of fabric pieces stitched to the painting's canvas.

B. The exhibition *Oracles of the Pink Universe* featured artworks by artist Simphiwe Ndzube.

C. Depicting three standing, clothed figures, *Assertion of Will* is a painting by Simphiwe Ndzube.

D. Simphiwe Ndzube's *Assertion of Will* was one of eight artworks exhibited in *Oracles of the Pink Universe* at the Denver Museum of Art.

**Correct Answer: A**

**Rationale**

Choice A is the best answer. This choice directly describes how fabric is used in *Assertion of Will*, by explaining that the fabric pieces are part of the painting itself.

Choice B is incorrect. This choice provides contextual information about the exhibition, but it doesn't mention anything about the painting or the fabric. Choice C is incorrect. This choice mentions that the figures are clothed, but it doesn't explain how the fabric is integrated into the painting. Choice D is incorrect. This choice provides contextual information about the painting, but it doesn't mention anything about the fabric or how it is used.

**Question**

While researching a topic, a student has taken the following notes:

- The mountain pygmy possum is a mammal species.
- Up until 1966, it was believed to be extinct.
- That year, a live mountain pygmy possum was identified in the wild in Australia.
- The mountain pygmy possum is considered a Lazarus species.
- “Lazarus species” is a term for living species of organisms that were once believed to be extinct.

The student wants to define the term “Lazarus species” and provide an example of one. Which choice most effectively uses relevant information from the notes to accomplish these goals?

**Answer**

A. The term “Lazarus species” describes a living species of organism, such as the mountain pygmy possum, that was once believed to be extinct.

B. One example of a Lazarus species is the mountain pygmy possum, a mammal species that was identified in the wild in Australia in 1966.

C. The mountain pygmy possum, a species of mammal, was identified in the wild in 1966.

D. Sometimes, a species once believed to be extinct is later found living in the wild.

**Correct Answer: A**

**Rationale**

Choice A is the best answer. The sentence defines the term "Lazarus species" and provides an example of one, explaining that a Lazarus species is a living organism that was once believed to be extinct and providing the mountain pygmy possum as an example.

Choice B is incorrect. While the sentence provides an example of a Lazarus species, it doesn’t define the term "Lazarus species." Choice C is incorrect. The sentence provides information about the mountain pygmy possum; it doesn’t define the term "Lazarus species" or explicitly identify the mountain pygmy possum as a Lazarus species. Choice D is incorrect. While the sentence describes the concept of a Lazarus species, it doesn’t define the term or provide an example of a Lazarus species.

**Question**

While researching a topic, a student has taken the following notes:

- Muslins are woven cotton fabrics with a variety of uses.
- Dhaka muslin is a handmade fabric produced in Dhaka, Bangladesh.
- It has an extremely fine weave and is primarily used to make luxury clothing.
- Sheeting muslin is a machine-made fabric produced in factories.
- It has a coarse weave and is primarily used to upholster furniture and create backdrops for theater sets.

The student wants to emphasize a difference between the two muslins. Which choice most effectively uses relevant information from the notes to accomplish this goal?

**Answer**

A. Dhaka muslin is a handmade fabric with an extremely fine weave, while sheeting muslin is machine made with a coarse weave.

B. Dhaka muslin and sheeting muslin are two different types of woven cotton fabrics.

C. Muslins can be used in a variety of ways, from making luxury clothing to upholstering furniture and creating backdrops for theater sets.

D. Sheeting muslin is machine made, has a coarse weave, and is used for furniture and theater sets.

**Correct Answer: A**

**Rationale**

Choice A is the best answer. The difference between the two different kinds of muslin is emphasized.

Choice B is incorrect. This choice lists two kinds of muslins, but does not say how they are different from one another. Choice C is incorrect. This choice does not emphasize a difference between the two muslins. Choice D is incorrect. This choice does not emphasize a difference between the two muslins. It only describes sheeting muslin.

# Question ID: 296801d2

| Assessment | Test | Domain | Skill | Difficulty |

| SAT | Reading and Writing | Expression of Ideas | Rhetorical Synthesis | Easy |

**Question**

While researching a topic, a student has taken the following notes:

- The Azores is a group of islands about 870 miles off the coast of Portugal.
- Historians have long believed that in the fifteenth century Portuguese mariners were the first humans to populate the Azores.
- A 2015 study coauthored by Sofia Gabriel and Maria da Luz Mathias found that Vikings from Scandinavia may have populated the Azores as early as the ninth century.
- The researchers found a genetic connection between house mice in the Azores and house mice in Scandinavia.
- House mice may have traveled from Scandinavia to the Azores on Viking ships.

The student wants to specify who may have first populated the Azores, according to the 2015 study. Which choice most effectively uses relevant information from the notes to accomplish this goal?

**Answer**

A. Historians have long believed that the first humans to populate the Azores, a group of islands about 870 miles off the coast of Portugal, arrived in the fifteenth century.

B. Portuguese mariners may not have been the first humans to populate the Azores.

C. In their 2015 study, the researchers found a genetic connection between house mice in the Azores and those in Scandinavia.

D. According to a 2015 study, the first humans to populate the Azores may have been Vikings from Scandinavia, not mariners from Portugal as previously believed.

**Correct Answer: D**

**Rationale**

Choice D is the best answer. This choice effectively specifies who may have first populated the Azores, according to the 2015 study: the Vikings.

Choice A is incorrect. This choice doesn't effectively specify who may have first populated the Azores, according to the 2015 study. It only mentions the historical belief that the Portuguese were first. The 2015 study drew a different conclusion. Choice B is incorrect. This choice casts doubt on the Portuguese claim but doesn't name the group of people who may have arrived before the Portuguese. Choice C is incorrect. This choice mentions the evidence that the researchers found but not the conclusion they drew from it. It doesn't name the possible group of people who may have arrived before the Portuguese.

**Question**

While researching a topic, a student has taken the following notes:

- Yellowstone is a national park in the northwest United States.
- In 1995, gray wolves were reintroduced into the park.
- Since then, the number of gray wolves in the park has stabilized at roughly 100.
- This number is believed to be the park's carrying capacity.
- Carrying capacity describes the maximum number of a species that a specific environment's resources can sustain over time.

The student wants to specify the number of gray wolves in Yellowstone. Which choice most effectively uses relevant information from the notes to accomplish this goal?

**Answer**

A. Gray wolves were reintroduced into Yellowstone, a national park in the northwest United States, in 1995.

B. As of 1995, there were gray wolves living in Yellowstone, a national park in the northwest United States.

C. The carrying capacity of an environment, such as Yellowstone, describes the maximum number of species that the environment can sustain over time.

D. Yellowstone is a national park that has roughly 100 gray wolves living in it.

**Correct Answer: D**

**Rationale**

Choice D is the best answer. This choice uses relevant information from the third bullet point to state the approximate number of gray wolves in Yellowstone.

Choice A is incorrect. This choice mentions the year gray wolves in Yellowstone were reintroduced but not how many there are currently. Choice B is incorrect. This choice mentions the year gray wolves in Yellowstone were reintroduced but not how many there are currently. Choice C is incorrect. This choice defines the term carrying capacity but doesn't connect it to the specific number of gray wolves currently living in Yellowstone.

**Question**

While researching a topic, a student has taken the following notes:

- Novelist Willa Cather grew up in Nebraska and attended the University of Nebraska-Lincoln.
- Some of Cather's best-known novels are set in Nebraska.
- Two such novels are *O Pioneers!* (1913) and *My Ántonia* (1918).
- Cather's novels describe the experiences of immigrants who settled in the Great Plains.

The student wants to identify the setting of Cather's novel *My Ántonia.* Which choice most effectively uses relevant information from the notes to accomplish this goal?

**Answer**

A. *My Ántonia* is set in Nebraska, where Cather grew up.

B. Cather, author of *My Ántonia*, described the experiences of immigrants in her novels.

C. Among Cather's best-known novels are *O Pioneers!* (1913) and *My Ántonia* (1918).

D. Cather attended the University of Nebraska-Lincoln and set some of her novels in Nebraska.

**Correct Answer: A**

**Rationale**

Choice A is the best answer. This choice directly identifies the setting of Cather's novel *My Ántonia* as Nebraska.

Choice B is incorrect. This choice mentions that Cather wrote about immigrants, but it doesn't indicate where they lived. Choice C is incorrect. This choice mentions that *My Ántonia* is one of Cather's best-known novels but doesn't state where it takes place. Choice D is incorrect. This choice mentions that some of Cather's novels are set in Nebraska, but it doesn't specify which ones, so we can't be certain that *My Ántonia* is one of them. It also includes irrelevant information about Cather's education.

**Question**

While researching a topic, a student has taken the following notes:

- In 2013, paleontology professor Hesham Sallam and his students from Mansoura University in Egypt made a discovery.
- The team found a partial dinosaur skeleton at a site in Egypt's Dakhla Oasis.
- The skeleton belonged to a dinosaur species that lived approximately 80 million years ago.
- The new species was named *Mansourasaurus* to recognize the team that discovered it.

The student wants to explain the origin of the species' name. Which choice most effectively uses relevant information from the notes to accomplish this goal?

**Answer**

A. *Mansourasaurus,* a new species discovered in Egypt in 2013, lived approximately 80 million years ago.

B. A partial dinosaur skeleton found in Egypt's Dakhla Oasis belonged to a species named *Mansourasaurus*.

C. *Mansourasaurus,* a species that lived approximately 80 million years ago, was discovered in 2013 by Egyptian paleontologist Hesham Sallam and a team of university students.

D. The new species was named *Mansourasaurus* to recognize the team that discovered it, a professor and students from Mansoura University.

**Correct Answer: D**

**Rationale**

Choice D is the best answer. It explains where the dinosaur's name came from.

Choice A is incorrect. This choice does not explain the origin of the dinosaur's name. Choice B is incorrect. This choice does not explain the origin of the dinosaur's name. Choice C is incorrect. This choice does not explain the origin of the dinosaur's name.

**Question**

While researching a topic, a student has taken the following notes:

- A wok is a cooking pan that originated in China during the Han dynasty (206 BCE–220 CE).
- The wok's round, wide base helps to cook food evenly.
- The wok's high, angled sides help to contain oil splatters.
- Grace Young is a cook and culinary historian.
- Her book *The Breath of a Wok* (2004) traces the history of the wok.

The student wants to describe the wok's shape. Which choice most effectively uses relevant information from the notes to accomplish this goal?

**Answer**

A. Grace Young's 2004 book, *The Breath of a Wok*, traces the history of the cooking pan.

B. Able to cook food evenly and contain oil splatters, the wok is the subject of Grace Young's 2004 book.

C. A wok is a cooking pan with a round, wide base and high, angled sides.

D. The design of a wok, a type of cooking pan that originated in China during the Han dynasty, helps the pan cook food evenly and contain oil splatters.

**Correct Answer: C**

**Rationale**

Choice C is the best answer. It summarizes the information that describes the wok's shape from the second and third bullet points.

Choice A is incorrect. This choice doesn't describe the shape of a wok. Choice B is incorrect. This choice doesn't describe the shape of a wok, just some of its features. Choice D is incorrect. This choice doesn't describe the shape of a wok, only some of its benefits or functions.

| SAT | Reading and Writing | Expression of Ideas | Rhetorical Synthesis | Easy |

**Question**

While researching a topic, a student has taken the following notes:

- Archaeologist Dr. Sada Mire founded the Horn Heritage Foundation to preserve the cultural history of regions in the Horn of Africa.
- Horn Heritage has overseen a preservation project to create 3D digital scans of ancient rock art in Somaliland.
- Paintings found at the Laas Geel caves are included in the scans.
- The Laas Geel paintings feature human figures and animals.
- Paintings found at the Dhagah Nabi Galay caves are included in the scans.
- The Dhagah Nabi Galay caves feature what are thought to be the earliest examples of writing in East Africa.

The student wants to emphasize a similarity between the Laas Geel paintings and the Dhagah Nabi Galay paintings. Which choice most effectively uses relevant information from the notes to accomplish this goal?

**Answer**

A. The earliest examples of writing in East Africa are thought to be featured in the paintings at the Dhagah Nabi Galay caves in Somaliland.

B. The paintings at the Dhagah Nabi Galay caves feature examples of writing, while those at the Laas Geel caves feature humans and animals.

C. In Somaliland, the paintings in the Laas Geel caves feature human figures and animals.

D. The Laas Geel paintings and the Dhagah Nabi Galay paintings are both examples of ancient rock art found in Somaliland.

**Correct Answer: D**

**Rationale**

Choice D is the best answer. This choice compares the Laas Geel paintings and the Dhagah Nabi Galay paintings to one another and emphasizes what they have in common: they are both ancient rock art found in the same region.

Choice A is incorrect. This choice only mentions the Dhagah Nabi Galay paintings. It doesn't compare them to the Laas Geel paintings. Choice B is incorrect. This choice doesn't emphasize a similarity between the two paintings. Instead, it emphasizes a difference: the type of content they depict. Choice C is incorrect. This choice only mentions the Laas Geel paintings. It doesn't compare them to the Dhagah Nabi Galay paintings.

# Question ID: ba263620

**Question**

While researching a topic, a student has taken the following notes:

- In 1897, African American inventor Andrew Beard invented an automatic coupler.
- It improved on the existing design of train car couplers.
- It made the job of connecting train cars safer.
- In 1938, African American inventor Frederick Jones invented a mobile refrigeration system.
- It improved on the existing design of food transport trucks.
- It enabled trucks to carry perishable foods farther.

The student wants to emphasize a similarity between Beard's invention and Jones's invention. Which choice most effectively uses relevant information from the notes to accomplish this goal?

**Answer**

A. Beard's automatic coupler and Jones's mobile refrigeration system both improved on existing designs.

B. In 1897, Beard invented an automatic coupler, which made the job of connecting train cars safer.

C. Beard's invention made the job of connecting train cars safer, whereas Jones's invention enabled food transport trucks to carry perishables farther.

D. Jones's mobile refrigeration system, which he invented in 1938, made it possible for food transport trucks to carry perishable foods farther.

**Correct Answer: A**

**Rationale**

Choice A is the best answer. It compares Beard's and Jones's inventions to one another, and emphasizes what they have in common.

Choice B is incorrect. This choice doesn't emphasize a similarity. It only mentions Beard's invention. It doesn't compare it to Jones's invention. Choice C is incorrect. This choice doesn't emphasize a similarity between the two inventions. Instead, it emphasizes a difference. Choice D is incorrect. This choice doesn't emphasize a similarity. It only mentions Jones's invention. It doesn't compare it to Beard's invention.

# Question ID: 7f2781fd

| Assessment | Test | Domain | Skill | Difficulty |

**Question**

While researching a topic, a student has taken the following notes:

- *Certhidea olivacea* is a perching bird that can be found on the Galápagos Island of Pinzón.
- *Creagrus furcatus* is a seabird that can be found on the Galápagos Island of Darwin.
- Conservation organizations evaluate the risk that species will become extinct in the near future.
- *C. olivacea* faces a high risk of extinction.
- *C. furcatus* faces little risk of becoming extinct in the near future.

The student wants to compare the extinction risk faced by *C. olivacea* with that faced by *C. furcatus*. Which choice most effectively uses relevant information from the notes to accomplish this goal?

**Answer**

A. According to conservation organizations, *C. olivacea* has a higher risk of becoming extinct in the near future than *C. furcatus*.

B. *C. furcatus* faces a high risk of extinction, while *C. olivacea* faces little risk of becoming extinct in the near future.

C. Conservation organizations have evaluated both *C. furcatus*'s and *C. olivacea*'s risk of becoming extinct in the near future.

D. *C. olivacea* is a perching bird that faces a high risk of extinction.

**Correct Answer: A**

**Rationale**

Choice A is the best answer. The sentence compares the extinction risks of the two species, noting that *C. olivacea* has a higher risk of becoming extinct in the near future than *C. furcatus*.

Choice B is incorrect. While the sentence does compare the extinction risks of the two species, it misrepresents information from the notes; *C. olivacea* faces a higher risk of becoming extinct in the near future than *C. furcatus*, not the other way around. Choice C is incorrect. While the sentence mentions that conservation organizations have evaluated both species for extinction risk, it doesn't compare the extinction risks of the two species. Choice D is incorrect. While the sentence states that *C. olivacea* faces a high risk of extinction, it doesn't mention *C. furcatus* or compare the extinction risks of the two species.

**Question**

While researching a topic, a student has taken the following notes:

- Miguel Luciano is a multimedia visual artist.
- One of his sculptures is *Double Phantom/EntroP.R.* (2017).
- The work consists of two red Schwinn Phantom bicycles that he fused together.
- The bicycles face opposite directions.
- The bicycles share the same rear wheel.

The student wants to describe how the bicycles in *Double Phantom/EntroP.R.* are fused together. Which choice most effectively uses relevant information from the notes to accomplish this goal?

**Answer**

A. To create the sculpture *Double Phantom/EntroP.R.*, Miguel Luciano fused together two Schwinn Phantom bicycles.

B. There are two red Schwinn Phantom bicycles in the sculpture *Double Phantom/EntroP.R.*

C. The two red bicycles in *Double Phantom/EntroP.R.* are fused together so that they share the same rear wheel while facing opposite directions.

D. *Double Phantom/EntroP.R.* is a sculpture created by multimedia visual artist Miguel Luciano.

**Correct Answer: C**

**Rationale**

Choice C is the best answer. The sentence correctly describes how the bicycles in the sculpture are fused together: they share the same rear wheel while facing opposite directions.

Choice A is incorrect. The sentence states that the bicycles are fused together but doesn't describe how they are fused. Choice B is incorrect. The sentence states that there are two bicycles in the sculpture without indicating that they are fused together or describing how they are fused. Choice D is incorrect. It identifies the artist who created the sculpture but doesn't describe how the bicycles are fused together.

**Question**

While researching a topic, a student has taken the following notes:

- Annie Wu is a prominent American flutist who graduated from the New England Conservatory.
- She has won multiple national flute competitions.
- She is best known for a 2011 YouTube video that has been viewed over two million times.
- The video shows her performing *Three Beats for Beatbox Flute,* an original work by composer Greg Pattillo.
- Wu combines flute playing and beatboxing in the video.

The student wants to emphasize Wu's most well-known achievement. Which choice most effectively uses relevant information from the notes to accomplish this goal?

**Answer**

A. Annie Wu, who has won multiple national flute competitions, has also combined flute playing and beatboxing.

B. Among her many achievements, prominent American flutist Annie Wu graduated from the New England Conservatory and has won multiple national flute competitions.

C. Annie Wu is best known for a 2011 YouTube video performance of *Three Beats for Beatbox Flute* that has been viewed over two million times.

D. Composer Greg Pattillo's original work *Three Beats for Beatbox Flute* combines flute playing and beatboxing.

**Correct Answer: C**

**Rationale**

Choice C is the best answer. This describes the achievement for which Wu is best known.

Choice A is incorrect. This choice doesn't emphasize Wu's most well-known achievement. It mentions some of her general achievements, but not the one for which she is "best known." Choice B is incorrect. This choice doesn't emphasize Wu's most well-known achievement—it describes several of her achievements equally. Choice D is incorrect. This choice doesn't emphasize Wu's most well-known achievement. It describes a piece of music featured in her most well-known achievement.

**Question**

While researching a topic, a student has taken the following notes:

- Bioluminescence is the emission of light by living organisms.
- This light is produced by chemical reactions in organisms' cells.
- Jellyfish emit flashes of blue light.
- This behavior serves to startle predators.
- Black dragonfish emit a steady red light.
- This behavior helps them locate prey in deep waters.

The student wants to emphasize a difference between the behavior of jellyfish and that of black dragonfish. Which choice most effectively uses relevant information from the notes to accomplish this goal?

**Answer**

A. Both jellyfish and black dragonfish are organisms that emit light, which is produced by chemical reactions in these organisms' cells.

B. Black dragonfish emit a steady red light, which helps them locate prey in deep waters.

C. Bioluminescence, the emission of light by living organisms, results from chemical reactions in organisms' cells.

D. Jellyfish emit light to startle predators, whereas black dragonfish do so to locate prey.

**Correct Answer: D**

**Rationale**

Choice D is the best answer. The sentence emphasizes a difference between the behavior of jellyfish and that of black dragonfish, noting that jellyfish and black dragonfish emit light as part of different behaviors (protection and predation, respectively).

Choice A is incorrect. The sentence emphasizes a similarity between jellyfish and black dragonfish; it doesn't emphasize a difference between the behavior of the two animals. Choice B is incorrect. The sentence emphasizes the type of bioluminescence exhibited by black dragonfish, noting that it's used in predation; it doesn't emphasize a difference between the behavior of the two animals. Choice C is incorrect. The sentence defines bioluminescence and explains how it works; the sentence doesn't mention either animal or emphasize a difference between them.

**Question**

While researching a topic, a student has taken the following notes:

- The painter Frida Kahlo is one of the most influential artists of the twentieth century.
- She was born in Coyoacán, Mexico, in 1907.
- She is best known for her vivid and richly symbolic self-portraits.
- *The Two Fridas* (1939) features two versions of Kahlo sitting together.
- One version wears a European-style dress and the other a traditional Tehuana dress.

The student wants to introduce Kahlo to an audience unfamiliar with the artist. Which choice most effectively uses relevant information from the notes to accomplish this goal?

**Answer**

A. Known for being vivid and richly symbolic, Frida Kahlo's self-portraits include *The Two Fridas* (1939).

B. The 1939 painting *The Two Fridas* is one example of a self-portrait by Frida Kahlo.

C. One painting by Frida Kahlo features two versions of herself, with one version wearing a European-style dress and the other a traditional Tehuana dress.

D. One of the most influential artists of the twentieth century, Mexican painter Frida Kahlo is best known for her self-portraits, which are vivid and richly symbolic.

**Correct Answer: D**

**Rationale**

Choice D is the best answer. By identifying Kahlo as an influential artist from Mexico, and by describing the work she's best known for, this choice provides the background information necessary to introduce Kahlo to an unfamiliar audience.

Choice A is incorrect. This choice doesn't effectively introduce Kahlo. It doesn't include any background information about who Kahlo is or where she's from. It simply identifies one of her paintings. Choice B is incorrect. This choice doesn't effectively introduce Kahlo. It doesn't include any background information about who Kahlo is or where she's from. It simply identifies one of her paintings. Choice C is incorrect. This choice doesn't effectively introduce Kahlo. It doesn't include any background information about who Kahlo is or where she's from. Instead, it describes one of her paintings in detail.
