SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	Medium

Question

While researching a topic, a student has taken the following notes:

- Organisms release cellular material into their environment by shedding substances such as hair or skin.
- The DNA in these substances is known as environmental DNA, or eDNA.
- Researchers collect and analyze eDNA to detect the presence of species that are difficult to observe.
- Geneticist Sara Oyler-McCance's research team analyzed eDNA in water samples from the Florida Everglades to detect invasive constrictor snake species in the area.
- The study determined a 91% probability of detecting Burmese python eDNA in a given location.

The student wants to present the study to an audience already familiar with environmental DNA. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Answer

A. Sara Oyler-McCance's researchers analyzed eDNA in water samples from the Florida Everglades for evidence of invasive constrictor snakes, which are difficult to observe.

B. An analysis of eDNA can detect the presence of invasive species that are difficult to observe, such as constrictor snakes.

C. Researchers found Burmese python eDNA, or environmental DNA, in water samples; eDNA is the DNA in released cellular materials, such as shed skin cells.

D. Sara Oyler-McCance's researchers analyzed environmental DNA (eDNA)—that is, DNA from cellular materials released by organisms—in water samples from the Florida Everglades.

Correct Answer: A

Rationale

Choice A is the best answer. This choice presents the study in a way that assumes the audience is already familiar with eDNA.

Choice B is incorrect. This choice doesn't present the study. It only states a general fact about eDNA analysis. Choice C is incorrect. This choice isn't suited for an audience already familiar with eDNA. A familiar audience wouldn't need to have the term defined or explained. Choice D is incorrect. This choice isn't suited for an audience already familiar with eDNA. A familiar audience wouldn't need to have the term defined or explained. It also doesn't present the study.

Question ID: 48d0bb34

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	Medium

Question

While researching a topic, a student has taken the following notes:

- Sam Maloof (1916–2009) was an American woodworker and furniture designer.
- He was the son of Lebanese immigrants.
- He received a “genius grant” from the John D. and Catherine T. MacArthur Foundation in 1985.
- The Museum of Fine Arts in Boston, Massachusetts, owns a rocking chair that Maloof made from walnut wood.
- The armrests and the seat of the chair are sleek and contoured, and the back consists of seven spindle-like slats.

The student wants to describe the rocking chair to an audience unfamiliar with Sam Maloof. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Answer

A. With its sleek, contoured armrests and seat, the walnut rocking chair in Boston’s Museum of Fine Arts is just one piece of furniture created by American woodworker Sam Maloof.

B. Sam Maloof was born in 1916 and died in 2009, and during his life, he made a chair that you can see if you visit the Museum of Fine Arts in Boston.

C. Furniture designer Sam Maloof was a recipient of one of the John D. and Catherine T. MacArthur Foundation’s “genius grants.”

D. The rocking chair is made from walnut, and it has been shaped such that its armrests and seat are sleek and contoured.

Correct Answer: A

Rationale

Choice A is the best answer. The sentence effectively describes the rocking chair to an audience unfamiliar with Sam Maloof, noting its sleek, contoured armrests and seat and explaining that Sam Maloof (the walnut chair’s creator) was an American woodworker.

Choice B is incorrect. While the sentence explains who Sam Maloof was and mentions a chair, it doesn’t describe the chair. Choice C is incorrect. While the sentence explains who Sam Maloof was, it doesn’t describe the rocking chair. Choice D is incorrect. While the sentence describes the rocking chair, it doesn’t explain who Sam Maloof was.

Question ID: 84e108cf

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	Medium

Question

While researching a topic, a student has taken the following notes:

- Platinum is a rare and expensive metal.
- It is used as a catalyst for chemical reactions.
- Platinum catalysts typically require a large amount of platinum to be effective.
- Researcher Jianbo Tang and his colleagues created a platinum catalyst that combines platinum with liquid gallium.
- Their catalyst was highly effective and required only trace amounts of platinum (0.0001% of the atoms in the mixture).

The student wants to explain an advantage of the new platinum catalyst developed by Jianbo Tang and his colleagues. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Answer

A. Researcher Jianbo Tang and his colleagues created a platinum catalyst that combines platinum, a rare and expensive metal, with liquid gallium.

B. Like other platinum catalysts, the new platinum catalyst requires a particular amount of the metal to be effective.

C. Platinum is a rare and expensive metal that is used as a catalyst for chemical reactions; however, platinum catalysts typically require a large amount of platinum to be effective.

D. While still highly effective, the new platinum catalyst requires far less of the rare and expensive metal than do other platinum catalysts.

Correct Answer: D

Rationale

Choice D is the best answer. The sentence explains an advantage of Tang and his colleagues' platinum catalyst, noting that it requires far less platinum (which is rare and expensive) than other platinum catalysts do.

Choice A is incorrect. The sentence describes the platinum catalyst that Tang and his colleagues created; it doesn't explain an advantage of their platinum catalyst. Choice B is incorrect. The sentence emphasizes a similarity between the new platinum catalyst and other platinum catalysts; it doesn't explain an advantage of the new platinum catalyst. Choice C is incorrect. The sentence connects the metal platinum to the functioning of platinum catalysts, noting that large amounts of platinum are typically required for platinum catalysts to be effective; it doesn't explain an advantage of Tang and his colleagues' platinum catalyst.

Question ID: 7298633c

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	Medium

Question

While researching a topic, a student has taken the following notes:

- Grimanesa Amoros is a Peruvian American artist well known for her LED light sculptures.
- Her sculpture *Uros Island* is made of smooth multicolored LED domes.
- It occupies 335 cubic feet of space.
- Her sculpture *Fortuna* is made of entangled blue and white LED tubes.
- It occupies 19,950 cubic feet of space.

The student wants to emphasize a similarity between *Uros Island* and *Fortuna*. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Answer

A. The smooth LED domes of Grimanesa Amoros's *Uros Island* stand in contrast to the tangled LED tubes of *Fortuna*.

B. At 19,950 cubic feet in size, Grimanesa Amoros's *Fortuna* cuts a larger figure than the 335-cubic-foot *Uros Island*.

C. Grimanesa Amoros is the artist behind *Uros Island*—a sculpture made of smooth multicolored LED domes.

D. *Uros Island* is an LED light sculpture made by Grimanesa Amoros, as is *Fortuna*.

Correct Answer: D

Rationale

Choice D is the best answer. The sentence emphasizes a similarity between the sculptures, noting that both *Uros Island* and *Fortuna* are LED light sculptures created by Grimanesa Amoros.

Choice A is incorrect. Noting that *Uros Island*'s smooth LED domes contrast with *Fortuna*'s tangled LED tubes, the sentence emphasizes a difference between the two sculptures rather than a similarity. Choice B is incorrect. Contrasting the respective sizes of *Uros Island* and *Fortuna*, the sentence emphasizes a difference between the two sculptures rather than a similarity. Choice C is incorrect. While the sentence describes *Uros Island*, it doesn't mention *Fortuna* or emphasize any similarity between the two sculptures.

Question ID: 2bf05ae9

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	Medium

Question

While researching a topic, a student has taken the following notes:

- In the midst of the US Civil War, Susie Taylor escaped slavery and fled to Union-army-occupied St. Simons Island off the Georgia coast.
- She began working for an all-Black army regiment as a nurse and teacher.
- In 1902, she published a book about the time she spent with the regiment.
- Her book was the only Civil War memoir to be published by a Black woman.
- It is still available to readers in print and online.

The student wants to emphasize the uniqueness of Taylor's accomplishment. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Answer

A. Taylor fled to St. Simons Island, which was then occupied by the Union army, for whom she began working.

B. After escaping slavery, Taylor began working for an all-Black army regiment as a nurse and teacher.

C. The book Taylor wrote about the time she spent with the regiment is still available to readers in print and online.

D. Taylor was the only Black woman to publish a Civil War memoir.

Correct Answer: D

Rationale

Choice D is the best answer. By indicating that Taylor's book was the only Civil War memoir published by a Black woman, this sentence emphasizes the uniqueness, or one-of-a-kind nature, of Taylor's accomplishment.

Choice A is incorrect. While the sentence describes some of Taylor's accomplishments, it doesn't emphasize the uniqueness of them. Choice B is incorrect. While the sentence describes some of Taylor's accomplishments, it doesn't emphasize that they were unique. Choice C is incorrect. While the sentence provides information about Taylor's book, it doesn't emphasize what made the book unique.

Question ID: 6249b173

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	Medium

Question

While researching a topic, a student has taken the following notes:

- In 2018 researchers Adwait Deshpande, Shreejata Gupta, and Anindya Sinha were observing wild macaques in India's Bandipur National Park.
- They saw macaques calling out to and gesturing at humans who were eating or carrying food.
- They designed a study to find out if the macaques were intentionally communicating to try to persuade the humans to share their food.
- In the study trials, macaques frequently called out to and gestured at humans holding food.
- In the study trials, macaques called out to and gestured at empty-handed humans less frequently.

The student wants to present the study's results. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Answer

A. Macaques in the study called out to and gestured more frequently at humans holding food than at empty-handed humans.

B. In 2018, researchers who had observed macaques in India's Bandipur National Park calling out to and gesturing at humans designed a study.

C. The researchers hoped to find out if the macaques were intentionally communicating to try to persuade humans to share their food.

D. The researchers studied how macaques behaved around both humans holding food and empty-handed humans.

Correct Answer: A

Rationale

Choice A is the best answer. This choice presents the study's results from the last two bullet points.

Choice B is incorrect. This choice describes the background and motivation of the study but not the outcome or findings. Choice C is incorrect. This choice describes the research question or hypothesis of the study but not the evidence or conclusion. Choice D is incorrect. This choice describes the method or design of the study but not the actual results.

Question ID: dd11e5ab

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	Medium

Question

While researching a topic, a student has taken the following notes:

- Muckrakers were journalists who sought to expose corruption in US institutions during the Progressive Era (1897–1920).
- Ida Tarbell was a muckraker who investigated the Standard Oil Company.
- She interviewed Standard Oil Company executives, oil industry workers, and public officials.
- She examined thousands of pages of the company's internal communications, including letters and financial records.
- Her book *The History of the Standard Oil Company* (1904) exposed the company's unfair business practices.

The student wants to emphasize the thoroughness of Ida Tarbell's investigation of the Standard Oil Company. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Answer

A. Ida Tarbell not only interviewed Standard Oil executives, oil industry workers, and public officials but also examined thousands of pages of the company's internal communications.

B. Ida Tarbell, who investigated the Standard Oil Company, was a muckraker (a journalist who sought to expose corruption in US institutions during the Progressive Era, 1897–1920).

C. As part of her investigation of the Standard Oil Company, muckraker Ida Tarbell conducted interviews.

D. Published in 1904, muckraker Ida Tarbell's book *The History of the Standard Oil Company* exposed the company's unfair business practices.

Correct Answer: A

Rationale

Choice A is the best answer. It describes Tarbell's investigation and the lengths she went to complete it.

Choice B is incorrect. This choice doesn't describe how thorough Tarbell was. Instead, it gives a biographical sketch. Choice C is incorrect. This choice doesn't describe how thorough Tarbell was. Tarbell didn't only conduct interviews—she also "examined thousands of pages of the company's internal communications." Choice D is incorrect. This choice doesn't describe how thorough Tarbell was. It describes her book but doesn't include anything about her investigation.

Question ID: 31ac4d2c

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	Medium

Question

While researching a topic, a student has taken the following notes:

- Hina Hanta is an online archive curated by the Choctaw Nation of Oklahoma.
- Hina Hanta means “bright path” in Choctaw.
- It features images of cultural artifacts relevant to the history of the Choctaw people.
- It includes a fanner basket (*ufko tapushik* in Choctaw) made from cane.
- It includes a robe (*nita anchi*) made from bear fur.

The student wants to specify the fanner basket’s name in Choctaw. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Answer

A. The Hina Hanta archive features cultural artifacts, such as a fanner basket and a robe, that are relevant to the history of the Choctaw people.

B. The cane fanner basket, which is included in the Hina Hanta online archive, is called an *ufko tapushik* in Choctaw.

C. Hina Hanta, which means “bright path” in Choctaw, includes a fanner basket in its archive.

D. The name of the online archive Hina Hanta means “bright path” in Choctaw.

Correct Answer: B

Rationale

Choice B is the best answer. The sentence specifies the fanner basket’s name in Choctaw, noting that it’s called *ufko tapushik*.

Choice A is incorrect. While the sentence mentions the fanner basket, it doesn’t specify its name in Choctaw. Choice C is incorrect. While the sentence mentions the fanner basket, it doesn’t specify its name in Choctaw. Choice D is incorrect. The sentence doesn’t mention the fanner basket or specify its name in Choctaw.

Question ID: 8432a140

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	Medium

Question

While researching a topic, a student has taken the following notes:

- Marine biologist Camille Jazmin Gaynus studies coral reefs.
- Coral reefs are vital underwater ecosystems that provide habitats to 25% of all marine species.
- Reefs can include up to 8,000 species of fish, such as toadfish, seahorses, and clown triggerfish.
- The Amazon Reef is a coral reef in Brazil.
- It is one of the largest known reefs in the world.

The student wants to introduce the scientist and her field of study to a new audience. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Answer

A. Located in Brazil, the Amazon Reef is one of the largest known coral reefs in the world.

B. Marine biologist Camille Jazmin Gaynus studies coral reefs, vital underwater ecosystems that provide homes to 25% of all marine species.

C. Providing homes to 25% of all marine species, including up to 8,000 species of fish, coral reefs are vital underwater ecosystems and thus of great interest to marine biologists.

D. As Camille Jazmin Gaynus knows well, coral reefs are vital underwater ecosystems, providing homes to thousands of species of fish.

Correct Answer: B

Rationale

Choice B is the best answer. We're asked to select the sentence that "introduce[s] the scientist and her field of study." This choice introduces scientist Camille Jazmin Gaynus as a marine biologist and explains what marine life she studies.

Choice A is incorrect. This choice doesn't mention Camille Jazmin Gaynus, so it fails to "introduce the scientist." Choice C is incorrect. This choice doesn't mention Camille Jazmin Gaynus, so it fails to "introduce the scientist." Choice D is incorrect. This choice mentions Camille Jazmin Gaynus, but it doesn't identify her as a marine biologist. It says she "knows well" about coral reefs, but doesn't identify her expertise as a "field of study."

Question ID: 146233fc

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	Medium

Question

While researching a topic, a student has taken the following notes:

- Lighthouses send out crucial light signals to help ships and other watercraft navigate at night.
- Before automation, lighthouses were run by lighthouse keepers.
- Maria Younghans was the lighthouse keeper at Biloxi Light in Mississippi.
- She held this position from 1867 to 1918.
- Flora McNeil was the lighthouse keeper at Bridgeport Breakwater Light in Connecticut.
- She held this position from 1904 to 1920.

The student wants to emphasize the order in which the two lighthouse keepers began their careers. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Answer

A. From 1867 to 1918, the nighttime waters of Mississippi were more navigable thanks to lighthouse keepers Flora McNeil and Maria Younghans.

B. Before automation, lighthouse keepers like Maria Younghans and Flora McNeil were crucial to ensuring safe navigation for watercraft.

C. Flora McNeil began her career as a lighthouse keeper years after Maria Younghans did.

D. Maria Younghans's career as a lighthouse keeper ended in 1918, whereas Flora McNeil's ended in 1920.

Correct Answer: C

Rationale

Choice C is the best answer. The sentence emphasizes the order in which the two lighthouse keepers began their careers, noting that McNeil, who became the keeper at Bridgeport Breakwater Light in 1904, began her career years after Younghans, who became the keeper at Biloxi Light in 1867.

Choice A is incorrect because it makes a generalization about the effects of McNeil's and Younghans's work; it doesn't emphasize the order in which the two keepers began their careers. In addition, the sentence misrepresents information from the notes; McNeil was the keeper at a lighthouse in Connecticut from 1904 to 1920, not at a lighthouse in Mississippi from 1867 to 1918. Choice B is incorrect. The sentence claims that Younghans and McNeil were crucial to ensuring the safety of watercraft before lighthouses became automated; it doesn't emphasize the order in which the two keepers began their careers. Choice D is incorrect. The sentence emphasizes when the lighthouse keepers' respective careers ended; it doesn't emphasize the order in which the two keepers began their careers.

Question ID: 85c0c0f0

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	Medium

Question

While researching a topic, a student has taken the following notes:

- Texture analysis and historical analysis are two approaches to art criticism.
- Texture analysis examines how surfaces are visually represented in an artwork.
- Such an analysis of Giorgione's *Youth Holding an Arrow* might consider how the painting's blended colors make the subject's skin appear smooth in texture.
- Historical analysis considers the historical context in which a work was created.
- Such an analysis of Diego Velázquez's *Las Meninas* might consider how the painting's depiction of the artist with King Philip IV symbolizes art's historical ties to power.

The student wants to present historical analysis to an audience unfamiliar with the concept. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Answer

A. A texture analysis of *Youth Holding an Arrow* might consider how the painting's blended colors make the subject's skin appear smooth in texture.

B. Texture analysis differs from historical analysis in that texture analysis examines how surfaces are visually represented in an artwork.

C. An approach to art criticism, historical analysis considers the historical context in which a work was created.

D. *Las Meninas*'s depiction of the artist with King Philip IV symbolizes art's historical ties to power.

Correct Answer: C

Rationale

Choice C is the best answer. The sentence presents historical analysis to an audience unfamiliar with the concept by defining it as an approach to art criticism that considers the historical context in which a work was created.

Choice A is incorrect because it provides an example of texture analysis; it doesn't present historical analysis to an audience unfamiliar with the concept. Choice B is incorrect. The sentence explains a difference between texture analysis and historical analysis; it doesn't present historical analysis to an audience unfamiliar with the concept. Choice D is incorrect. It provides an example of historical analysis; it doesn't present historical analysis to an audience unfamiliar with the concept.

Question ID: 58281fc4

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	Medium

Question

While researching a topic, a student has taken the following notes:

- Soo Sunny Park is a Korean American artist who uses light as her primary medium of expression.
- She created her work *Unwoven Light* in 2013.
- *Unwoven Light* featured a chain-link fence fitted with iridescent plexiglass tiles.
- When light passed through the fence, colorful prisms formed.

The student wants to describe *Unwoven Light* to an audience unfamiliar with Soo Sunny Park. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Answer

A. Park's 2013 installation *Unwoven Light*, which included a chain-link fence and iridescent tiles made from plexiglass, featured light as its primary medium of expression.

B. Korean American light artist Soo Sunny Park created *Unwoven Light* in 2013.

C. The chain-link fence in Soo Sunny Park's *Unwoven Light* was fitted with tiles made from iridescent plexiglass.

D. In *Unwoven Light*, a 2013 work by Korean American artist Soo Sunny Park, light formed colorful prisms as it passed through a fence Park had fitted with iridescent tiles.

Correct Answer: D

Rationale

Choice D is the best answer. The sentence effectively describes *Unwoven Light* to an audience unfamiliar with Park, noting that Soo Sunny Park is a Korean American artist and that the 2013 work consists of colorful prisms formed by light passing through iridescent tiles.

Choice A is incorrect. The sentence describes aspects of *Unwoven Light* but doesn't mention who Park is; it thus doesn't effectively describe the work to an audience unfamiliar with Park. Choice B is incorrect. Although the sentence indicates when the work was created and who Park is, it lacks descriptive details and thus doesn't effectively describe *Unwoven Light*. Choice C is incorrect. The sentence mentions Park and describes an aspect of *Unwoven Light*—the chain-link fence—but doesn't effectively describe the overall work to an audience unfamiliar with the artist.

Question ID: bce57278

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	Medium

Question

While researching a topic, a student has taken the following notes:

- Some US reformers sought to improve society in the 1800s by building utopias.
- A utopia is a community intended to represent a perfect society based on a specific set of principles.
- One such community was Brook Farm near Boston, Massachusetts.
- It was founded in 1841 by writer George Ripley.
- Ripley wrote in a letter that his goal for Brook Farm was "to guarantee the highest mental freedom, by providing all with labor, adapted to their tastes and talents, and securing to them the fruits of their industry."

The student wants to explain the goal of Brook Farm using a quotation from George Ripley. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Answer

A. In a letter, writer George Ripley explained his goal to "guarantee the highest mental freedom."

B. Utopias, such as Brook Farm, founded by George Ripley in 1841, were based on a specific set of principles intended to create a perfect society.

C. Founded by George Ripley near Boston, Massachusetts, Brook Farm was part of a trend in the 1800s, when reformers in the United States built utopias.

D. Established in 1841, Brook Farm was a utopian community created to "guarantee the highest mental freedom, by providing all with labor... [and] the fruits of their industry," according to founder George Ripley.

Correct Answer: D

Rationale

Choice D is the best answer. This choice explains the goal of Brook Farm—to provide mental freedom to all by engaging individuals in labor suited to their interests—using a quotation from George Ripley.

Choice A is incorrect. This choice only mentions part of Ripley's goal, and it doesn't mention Brook Farm at all. Choice B is incorrect. This choice defines what a utopia is but doesn't use Ripley's words to describe his vision for Brook Farm. Choice C is incorrect. This choice provides some background information about Brook Farm, but it doesn't explain its goals or include Ripley's words.

Question ID: 2b89bfe5

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	Medium

Question

While researching a topic, a student has taken the following notes:

- In 1999, astronomer Todd Henry studied the differences in surface temperature between the Sun and nearby stars.
- His team mapped all stars within 10 parsecs (approximately 200 trillion miles) of the Sun.
- The surface temperature of the Sun is around 9,800°F, which classifies it as a G star.
- 327 of the 357 stars in the study were classified as K or M stars, with surface temperatures under 8,900°F (cooler than the Sun).
- 11 of the 357 stars in the study were classified as A or F stars, with surface temperatures greater than 10,300°F (hotter than the Sun).

The student wants to emphasize how hot the Sun is relative to nearby stars. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Answer

A. At around 9,800°F, which classifies it as a G star, the Sun is hotter than most but not all of the stars within 10 parsecs of it.

B. Astronomer Todd Henry determined that the Sun, at around 9,800°F, is a G star, and several other stars within a 10-parsec range are A or F stars.

C. Of the 357 stars within ten parsecs of the Sun, 327 are classified as K or M stars, with surface temperatures under 8,900°F.

D. While most of the stars within 10 parsecs of the Sun are classified as K, M, A, or F stars, the Sun is classified as a G star due to its surface temperature of 9,800°F.

Correct Answer: A

Rationale

Choice A is the best answer. Noting that the Sun (9,800°F) is hotter than most stars within 10 parsecs of it, the sentence emphasizes how hot the Sun is relative to nearby stars.

Choice B is incorrect. The sentence explains that astronomer Todd Henry determined the classifications for the Sun and several other stars nearby; it doesn't emphasize how hot the Sun is relative to nearby stars. Choice C is incorrect. The sentence explains that the majority of stars near the Sun are classified as K or M stars; it doesn't indicate the Sun's temperature or emphasize how hot it is relative to nearby stars. Choice D is incorrect. While the sentence indicates that the Sun is classified differently than most nearby stars due to its surface temperature, it doesn't emphasize how hot the Sun is relative to nearby stars.

Question ID: 5d3177aa

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	Medium

Question

While researching a topic, a student has taken the following notes:

- In the early 1960s, the US had a strict national-origins quota system for immigrants.
- The number of new immigrants allowed from a country each year was based on how many people from that country lived in the US in 1890.
- This system favored immigrants from northern Europe.
- Almost 70% of slots were reserved for immigrants from Great Britain, Ireland, and Germany.
- The 1965 Hart-Celler Act abolished the national-origins quota system.

The student wants to present the significance of the Hart-Celler Act to an audience unfamiliar with the history of US immigration. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Answer

A. Almost 70% of slots were reserved for immigrants from Great Britain, Ireland, and Germany at the time the Hart-Celler Act was proposed.

B. Prior to the Hart-Celler Act, new immigration quotas were based on how many people from each country lived in the US in 1890.

C. The quota system in place in the early 1960s was abolished by the 1965 Hart-Celler Act.

D. The 1965 Hart-Celler Act abolished the national-origins quota system, which favored immigrants from northern Europe.

Correct Answer: D

Rationale

Choice D is the best answer. The sentence presents the significance of the Hart-Celler Act to an audience unfamiliar with the history of US immigration, noting that the 1965 act abolished the national-origins quota system and explaining why that mattered, historically: because the old quota system had favored immigrants from northern Europe.

Choice A is incorrect. The sentence describes an aspect of immigration policy at the time the Hart-Celler Act was proposed; it doesn't present the significance of the Hart-Celler Act to an audience unfamiliar with the history of US immigration. Choice B is incorrect. The sentence describes an aspect of immigration policy before the Hart-Celler Act; it doesn't describe or present the significance of the act to an audience unfamiliar with the history of US immigration. Choice C is incorrect. While the sentence indicates that the Hart-Celler Act abolished the old quota system, it doesn't explain the act or the quota system to an audience unfamiliar with the history of US immigration.

Question ID: 1b94a80a

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	Medium

Question

While researching a topic, a student has taken the following notes:

- Wool is a natural—and economically important—fiber that is obtained from animals like sheep.
- Australia is a leading producer of wool.
- The thickness of wool fibers varies across sheep breeds.
- Merino sheep produce fine wool that is used for apparel.
- Rambouillet sheep produce fine wool that is used for apparel.
- Romney sheep produce thick wool that is used for rugs and blankets.

The student wants to emphasize how Romney wool differs from Merino and Rambouillet wool. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Answer

A. Romney wool is just one of the many kinds of wools, each originating from a different breed of sheep.

B. Sheep wool varies from breed to breed, so Romney wool will be different than other kinds of wool.

C. The fine wool produced by Merino and Rambouillet sheep is used for apparel, whereas the thicker wool of Romney sheep is used in rugs and blankets.

D. Wool is an economically important fiber—especially in Australia—that can be used to make apparel or even rugs and blankets.

Correct Answer: C

Rationale

Choice C is the best answer. This choice most effectively emphasizes how Romney wool differs from Merino and Rambouillet wool. It describes the difference in thickness and the difference in what they're used for.

Choice A is incorrect. This choice doesn't emphasize how Romney wool differs from Merino and Rambouillet wool. It doesn't mention Merino or Rambouillet wool at all. Choice B is incorrect. This choice doesn't emphasize how Romney wool differs from Merino and Rambouillet wool. It doesn't mention Merino or Rambouillet wool at all. Choice D is incorrect. This choice doesn't emphasize how Romney wool differs from Merino and Rambouillet wool. It doesn't mention Romney, Merino or Rambouillet wool at all.

Question

While researching a topic, a student has taken the following notes:

- A marathon is a long-distance running race that is 26.2 miles long.
- An ultramarathon is a long-distance running race of more than 26.2 miles.
- The Kepler Challenge is a one-day, 37.3-mile ultramarathon in New Zealand.
- The Spreelauf is a six-day, 261-mile ultramarathon in Germany.

The student wants to make a generalization about ultramarathons. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Answer

A. Examples of ultramarathons include the 37.3-mile Kepler Challenge in New Zealand and the 261-mile Spreelauf in Germany.

B. A marathon is 26.2 miles long, but the Spreelauf ultramarathon, at 261 miles, is far longer.

C. Ultramarathons range widely in length, from a few dozen miles to a few hundred.

D. While the Kepler Challenge is a one-day ultramarathon, the Spreelauf is a six-day ultramarathon.

Correct Answer: C

Rationale

Choice C is the best answer. This is the only choice that makes a generalization about ultramarathons.

Choice A is incorrect. This choice gives specific examples of ultramarathons but doesn't say anything about them as a category. Choice B is incorrect. This choice compares marathons in general to one specific ultramarathon but doesn't say anything about ultramarathons as a category. Choice D is incorrect. This choice contrasts two specific ultramarathons but doesn't say anything about them as a category.

Question ID: 164a32e7

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	Medium

Question

While researching a topic, a student has taken the following notes:

- Claude McKay (1889–1948) was a Jamaican American writer.
- *Songs of Jamaica* (1912) and *Constab Ballads* (1912) are two acclaimed poetry collections that McKay published while living in Jamaica.
- McKay moved to Harlem in New York City in 1914.
- He is best known as a poet and novelist of the Harlem Renaissance, a literary and cultural movement of the 1920s and 1930s.
- His most famous works include the poetry collection *Harlem Shadows* (1922) and the novel *Home to Harlem* (1928).

The student wants to emphasize Claude McKay's accomplishments before moving to Harlem. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Answer

A. Jamaican American writer Claude McKay is the author of works such as *Songs of Jamaica* (1912), *Constab Ballads* (1912), *Harlem Shadows* (1922), and *Home to Harlem* (1928).

B. Although he is best known as a Harlem Renaissance writer, Claude McKay had published two acclaimed poetry collections in 1912 while living in Jamaica: *Songs of Jamaica* and *Constab Ballads*.

C. In 1914, Claude McKay moved to Harlem, where he would become known as a poet and novelist of the Harlem Renaissance (a literary and cultural movement of the 1920s and 1930s).

D. Before moving to Harlem, Claude McKay—author of the poetry collection *Harlem Shadows* (1922) and the novel *Home to Harlem* (1928)—lived in Jamaica.

Correct Answer: B

Rationale

Choice B is the best answer. This choice contrasts McKay's fame as a Harlem Renaissance writer with his earlier achievements as a Jamaican poet, and it names the two collections he published before moving to Harlem.

Choice A is incorrect. This choice doesn't emphasize McKay's accomplishments before moving to Harlem. It lists some of his works but doesn't distinguish between those he wrote in Jamaica and those he wrote in Harlem. Choice C is incorrect. This choice doesn't emphasize McKay's accomplishments before moving to Harlem. It only mentions the year he moved and what he would become known for afterwards. Choice D is incorrect. This choice doesn't emphasize McKay's accomplishments before moving to Harlem. It mentions that he lived in Jamaica, but it doesn't name any of the works he published there.

Question ID: 3c925481

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	Medium

Question

While researching a topic, a student has taken the following notes:

- Pineapple is a fruit that contains ascorbic acid, an essential nutrient for humans.
- Every 100 grams (g) of pineapple contains 48 milligrams (mg) of ascorbic acid.
- Many animals can make ascorbic acid in their bodies, but humans cannot.
- Humans must get ascorbic acid from foods, including fruits and vegetables.
- Ascorbic acid is also known as vitamin C.

The student wants to provide an example of a fruit that contains vitamin C. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Answer

A. Humans cannot make ascorbic acid in their bodies, but they can get it from foods, such as fruits, for example.

B. Vitamin C, also known as ascorbic acid, can be found in pineapple as well as other fruits.

C. Since humans cannot make vitamin C in their bodies, they must get it from food.

D. Many animals can make ascorbic acid, which is also known as vitamin C, in their bodies, but humans cannot.

Correct Answer: B

Rationale

Choice B is the best answer. The sentence provides an example of a fruit that contains vitamin C, noting that vitamin C (also known as ascorbic acid) can be found in pineapple as well as other fruits.

Choice A is incorrect. While the sentence does explain that humans can get vitamin C from fruits, it doesn't provide an example of a specific fruit that contains vitamin C. Choice C is incorrect. The sentence explains why humans must get vitamin C from foods; it doesn't provide an example of a fruit that contains vitamin C. Choice D is incorrect. The sentence compares vitamin C production in animals with vitamin C production in humans; it doesn't provide an example of a fruit that contains vitamin C.

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	Medium

Question

While researching a topic, a student has taken the following notes:

- Generally, an object will heat up when twisted.
- The twisting of an object is known as torsion.
- A 2019 study led by Zunfeng Liu and Ray Baughman tested the torsional heating of various fibers.
- When a 3-millimeter-thick sample of thermoplastic polyurethane (TPU) fiber was twisted, its average surface temperature increased by 6°C.
- When a 4-millimeter-thick sample of styrene-ethylene-butylene-styrene (SEBS) rubber fiber was twisted, its average surface temperature increased by 3.5°C.

The student wants to contrast the two samples. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Answer

A. When the fibers were twisted as part of the 2019 study, the surface temperature of both samples increased.

B. In 2019, researchers studied the effect of torsional heating on various fibers, including samples of SEBS rubber and TPU.

C. Twisting an object will generally cause its temperature to increase, a process known as torsional heating.

D. The SEBS rubber sample used in the 2019 study was thicker than the TPU sample.

Correct Answer: D

Rationale

Choice D is the best answer. The sentence contrasts the two samples, noting that the SEBS rubber sample, at 4 millimeters thick, was thicker than the TPU sample, which was 3 millimeters thick.

Choice A is incorrect because the sentence mentions a similarity between the TPU fiber and the SEBS rubber; it doesn't contrast the two samples. Choice B is incorrect because the sentence indicates that both the SEBS rubber and TPU samples were part of the 2019 study; it doesn't contrast the two samples. Choice C is incorrect because the sentence describes the process of torsional heating; it doesn't contrast the two samples.

Question ID: 45eaf7fb

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	Medium

Question

While researching a topic, a student has taken the following notes:

- Tecozautla is a municipality in the state of Hidalgo, Mexico.
- Municipalities are governmental regions responsible for providing many public services to their residents.
- One service they provide is street lighting.
- Tecozautla covers an area of roughly 535 km².
- Hidalgo is divided into 84 municipalities.

The student wants to emphasize the size of Tecozautla. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Answer

A. The municipality of Tecozautla in Hidalgo, Mexico, covers an area of roughly 535 km².

B. Providing street lighting is just one example of the public services that municipalities provide.

C. Tecozautla is one of 84 governmental regions, known as municipalities, across Hidalgo.

D. Tecozautla—a governmental region in the state of Hidalgo, Mexico—provides many public services to its residents.

Correct Answer: A

Rationale

Choice A is the best answer. The sentence emphasizes the size of Tecozautla, noting that it covers an area of roughly 535 km².

Choice B is incorrect. The sentence gives an example of a public service that municipalities provide; it doesn't emphasize the size of Tecozautla. Choice C is incorrect. While the sentence provides information about Tecozautla, it doesn't emphasize Tecozautla's size. Choice D is incorrect. While the sentence provides information about Tecozautla, it doesn't emphasize Tecozautla's size.

Question ID: a1ca7ec4

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	Medium

Question

While researching a topic, a student has taken the following notes:

- Cecilia Vicuña is a multidisciplinary artist.
- In 1971, her first solo art exhibition, *Pinturas, poemas y explicaciones*, was shown at the Museo Nacional de Bellas Artes in Santiago, Chile.
- Her poetry collection *Precario/Precarious* was published in 1983 by Tanam Press.
- Her poetry collection *Instan* was published in 2002 by Kelsey St. Press.
- She lives part time in Chile, where she was born, and part time in New York.

The student wants to introduce the artist's 1983 poetry collection. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Answer

A. Before she published the books *Precario/Precarious* (1983) and *Instan* (2002), Cecilia Vicuña exhibited visual art at the Museo Nacional de Bellas Artes in Santiago, Chile.

B. Cecilia Vicuña is a true multidisciplinary artist whose works include numerous poetry collections and visual art exhibitions.

C. Published in 1983 by Tanam Press, *Precario/Precarious* is a collection of poetry by the multidisciplinary artist Cecilia Vicuña.

D. In 1971, Cecilia Vicuña exhibited her first solo art exhibition, *Pinturas, poemas y explicaciones*, in Chile, her country of birth.

Correct Answer: C

Rationale

Choice C is the best answer. The sentence effectively introduces the poetry collection *Precario/Precarious*, noting that it is a collection by Vicuña that was published in 1983 by Tanam Press.

Choice A is incorrect. While the sentence mentions the 1983 poetry collection *Precario/Precarious*, it focuses mainly on Vicuña's visual art. Choice B is incorrect. The sentence doesn't introduce the 1983 poetry collection *Precario/Precarious*; instead, it introduces Vicuña. Choice D is incorrect. The sentence emphasizes the location of Vicuña's 1971 exhibition *Pinturas, poemas y explicaciones*; it doesn't introduce the 1983 poetry collection *Precario/Precarious*.

Question ID: 0778b4ac

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	Medium

Question

While researching a topic, a student has taken the following notes:

- Chromosomes are cellular structures that contain genes.
- Genes carry critical instructions for determining an organism's physical traits.
- Members of the same species typically have the same number of chromosomes.
- The pineapple (*Ananas comosus*) and the melon (*Cucumis melo*) are species of fruits.
- The pineapple has fifty chromosomes.
- The melon has twenty-four chromosomes.

The student wants to specify how many chromosomes the pineapple has. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Answer

A. The pineapple's chromosomes contain genes, which are critical to determining an organism's physical traits.

B. The pineapple (*Ananas comosus*) has fifty chromosomes.

C. The pineapple (*Ananas comosus*) and the melon (*Cucumis melo*) both have chromosomes, but the pineapple has more than the melon does.

D. The melon, a species of fruit, has twenty-four structures called chromosomes.

Correct Answer: B

Rationale

Choice B is the best answer. The sentence directly specifies how many chromosomes the pineapple has, as indicated in the notes: fifty.

Choice A is incorrect. While the sentence mentions the pineapple's chromosomes, it doesn't specify how many it has. Choice C is incorrect. The sentence indicates that the pineapple has more chromosomes than the melon; it doesn't specify the exact number of chromosomes the pineapple has. Choice D is incorrect. The sentence specifies how many chromosomes the melon has, not how many the pineapple has.

Question ID: 34e1124f

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	Medium

Question

While researching a topic, a student has taken the following notes:

- In geology, an Aeolian landform is one that has been created by the wind.
- In Greek mythology, Aeolus is the keeper of the winds.
- Aeolian landforms are created when the wind erodes, transports, or deposits material.
- A mushroom rock is a rock formation in which the top is wider than the base.
- A mushroom rock can be formed when the wind erodes the base and the top at different rates.

The student wants to provide an explanation and an example of Aeolian landforms. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Answer

A. Aeolian landforms are created by different wind-based processes; for example, some are created by wind erosion.

B. Aeolian landforms—landforms created by the wind—include the mushroom rock, a rock formation in which the wind erodes the base of the rock faster than the top.

C. Erosion, transportation, and deposition are three examples of how the wind can create Aeolian landforms and mushroom rocks.

D. A mushroom rock is a rock formation that owes its shape to the wind, a natural force associated with Aeolus in Greek mythology.

Correct Answer: B

Rationale

Choice B is the best answer. The sentence provides an explanation and an example of Aeolian landforms, explaining that they are landforms created by wind and offering the mushroom rock as an example.

Choice A is incorrect. The sentence explains that Aeolian landforms are created by wind but does not provide an example of any specific Aeolian landforms. Rather, the example it provides is of a wind-based process. Choice C is incorrect. While the sentence provides a partial explanation of Aeolian landforms, noting that they are created by the wind, it does not effectively provide an example. The sentence seems to indicate that mushroom rocks, rather than being an example of Aeolian landforms, are distinct from them. Choice D is incorrect. While the sentence provides an explanation of a mushroom rock, which is a specific example of an Aeolian landform, it doesn't provide an explanation of Aeolian landforms in general.

Question ID: 1469d23a

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	Medium

Question

While researching a topic, a student has taken the following notes:

- Etel Adnan was a Lebanese American poet and artist known for making many leporellos.
- A leporello is an artist's book that is folded accordion style.
- When the book is expanded, the artist's work is revealed, and its zigzag shape allows it to stand on its own.
- Her leporello *December from My Window* (1993) features a panoramic landscape.
- It is painted using ink and watercolor.

The student wants to describe Adnan's *December from My Window* to an audience already familiar with leporellos. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Answer

A. Featuring a panoramic landscape, the 1993 work is one of Adnan's many leporellos, which are accordion-style folded books that when expanded reveal the artist's work.

B. When expanded, Adnan's 1993 leporello *December from My Window* reveals a panoramic landscape painted in ink and watercolor.

C. Known for making many other accordion-style folded books called leporellos, Adnan created *December from My Window* in 1993.

D. A leporello, such as Adnan's *December from My Window*, is folded accordion style, and due to its zigzag shape it is able to stand on its own when fully expanded.

Correct Answer: B

Rationale

Choice B is the best answer. This choice describes Adnan's *December from My Window* in a way that assumes the audience is already familiar with leporellos and focuses on the specific features of the work—its content and medium.

Choice A is incorrect. This choice isn't suited for an audience already familiar with leporellos. A familiar audience wouldn't need to have the term defined or explained. Choice C is incorrect. This choice doesn't describe Adnan's *December from My Window*. It mentions the year and the type of work but not the content or the medium. In addition, it provides a simple definition of leporellos, making this an inappropriate choice for an audience already familiar with leporellos. Choice D is incorrect. This choice isn't suited for an audience already familiar with leporellos. A familiar audience wouldn't need to have the term defined.

Question ID: ed80971c

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	Medium

Question

While researching a topic, a student has taken the following notes:

- The Pueblo of Zuni is located about 150 miles west of Albuquerque, New Mexico.
- It is the traditional home of the A:shiwi (Zuni) people.
- The A:shiwi A:wan Museum and Heritage Center was established by tribal members in 1992.
- Its mission is stated on its website: “As a tribal museum and heritage center for the Zuni people and by the Zuni people we work to provide learning experiences that emphasize A:shiwi ways of knowing, as well as exploring modern concepts of knowledge and the transfer of knowledge.”

The student wants to emphasize how long the museum has existed. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Answer

A. The Pueblo of Zuni is home to the A:shiwi A:wan Museum and Heritage Center, which was founded by tribal members.

B. The A:shiwi A:wan Museum and Heritage Center has served the Pueblo of Zuni since 1992.

C. According to its website, the A:shiwi A:wan Museum and Heritage Center (founded in the 1990s) works to “emphasize A:shiwi ways of knowing.”

D. Knowledge has been one of the central themes of the A:shiwi A:wan Museum and Heritage Center from its founding.

Correct Answer: B

Rationale

Choice B is the best answer. This choice effectively uses information from the notes to emphasize how long the museum has existed. It says that the museum has existed since 1992.

Choice A is incorrect. This choice doesn’t emphasize how long the museum has existed. It doesn’t say when the museum was founded. Choice C is incorrect. This choice doesn’t emphasize how long the museum has existed. It doesn’t say the exact date of the museum’s founding. Rather, it emphasizes the museum’s mission. Choice D is incorrect. This choice doesn’t emphasize how long the museum has existed. It doesn’t say when the museum was founded.

Question ID: 5a5e22b5

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	Medium

Question

While researching a topic, a student has taken the following notes:

- Gravitational waves are powerful ripples that originate in deep space and eventually pass through Earth.
- The Laser Interferometer Gravitational Wave Observatory (LIGO) is a physics study that began in 2002.
- LIGO's goal is to detect and analyze gravitational waves.
- LIGO uses a pair of massive gravitational wave detectors called interferometers that are thousands of miles apart.
- In 2015, for the first time in history, LIGO researchers detected a gravitational wave passing through Earth.

The student wants to present LIGO's aim and methodology. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Answer

A. In 2015, LIGO's massive interferometers detected a powerful ripple that originated in deep space and eventually passed through Earth.

B. Though the physics study LIGO began in 2002, its massive interferometers didn't detect a gravitational wave until 2015.

C. To achieve its aims, LIGO uses a pair of massive interferometers that are thousands of miles apart.

D. A physics study designed to detect and analyze gravitational waves, LIGO uses a pair of massive interferometers that are thousands of miles apart.

Correct Answer: D

Rationale

Choice D is the best answer. The sentence effectively presents the LIGO study's aim, noting that it is designed to detect and analyze gravitational waves, and its methodology (it uses two interferometers to detect the waves).

Choice A is incorrect. The sentence describes a finding from the LIGO study; it doesn't effectively present the study's aim or its methodology. Choice B is incorrect. The sentence provides background information about the LIGO study's timeline; it doesn't effectively present the study's aim or its methodology. Choice C is incorrect. The sentence touches on LIGO's methodology, noting that it uses two interferometers, but doesn't indicate what the study's aims are.

Question ID: 6351062d

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	Medium

Question

While researching a topic, a student has taken the following notes:

- In the late 1890s, over 14,000 unique varieties of apples were grown in the US.
- The rise of industrial agriculture in the mid-1900s narrowed the range of commercially grown crops.
- Thousands of apple varieties considered less suitable for commercial growth were lost.
- Today, only 15 apple varieties dominate the market, making up 90% of apples purchased in the US.
- The Lost Apple Project, based in Washington State, attempts to find and grow lost apple varieties.

The student wants to emphasize the decline in unique apple varieties in the US and specify why this decline occurred. Which choice most effectively uses relevant information from the notes to accomplish these goals?

Answer

A. The Lost Apple Project is dedicated to finding some of the apple varieties lost following a shift in agricultural practices in the mid-1900s.

B. While over 14,000 apple varieties were grown in the US in the late 1890s, only 15 unique varieties make up most of the apples sold today.

C. Since the rise of industrial agriculture, US farmers have mainly grown the same few unique apple varieties, resulting in the loss of thousands of varieties less suitable for commercial growth.

D. As industrial agriculture rose to prominence in the mid-1900s, the number of crops selected for cultivation decreased dramatically.

Correct Answer: C

Rationale

Choice C is the best answer. The sentence emphasizes the decline in unique apple varieties in the US and specifies why this decline occurred, noting that thousands of apple varieties were lost because US farmers started mainly growing the same few unique varieties.

Choice A is incorrect. The sentence introduces the Lost Apple Project; it doesn't emphasize the decline in unique apple varieties in the US and specify why this decline occurred. Choice B is incorrect. While the sentence emphasizes the decline in unique apple varieties in the US, it doesn't explain why this decline occurred. Choice D is incorrect. The sentence emphasizes the general decline of crop varieties in the mid-1900s; it doesn't emphasize the specific decline in unique apple varieties in the US.

Question ID: 61c0f7b3

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	Medium

Question

- In 2017, a research team led by Mary Caswell Stoddard determined the average lengths of eggs produced by various bird species.
- *Gygis alba* is a species of bird in the order Charadriiformes.
- *Gygis alba* eggs had an average length of 4.46 cm.
- *Gavia stellata* is a species of bird in the order Gaviiformes.
- *Gavia stellata* eggs had an average length of 7.22 cm.

Which choice most effectively uses information from the given sentences to emphasize a difference between the eggs of the two species?

Answer

A. A 2017 study compared the lengths of eggs produced by an array of different bird species, such as *Gygis alba* and *Gavia stellata*.

B. A 2017 study found that *Gygis alba* eggs had an average length of 4.46 cm, whereas *Gavia stellata* eggs were longer, with an average length of 7.22 cm.

C. The bird species *Gygis alba*, which belongs to the order Charadriiformes, and *Gavia stellata*, of the order Gaviiformes, were included in a 2017 study that compared the average lengths of their eggs.

D. Mary Caswell Stoddard led a research study that determined the average lengths of eggs, including those of *Gygis alba* birds (4.46 cm) and *Gavia stellata* birds (7.22 cm).

Correct Answer: B

Rationale

Choice B is the best answer. The sentence emphasizes a difference between the eggs of the two species, directly contrasting the shorter average length of *Gygis alba* eggs (4.46 cm) with the longer average length of *Gavia stellata* eggs (7.22 cm).

Choice A is incorrect. While the sentence mentions both bird species, it doesn't emphasize a difference between their eggs. Choice C is incorrect. While the sentence provides information about the two bird species, it doesn't emphasize a difference between their eggs. Choice D is incorrect. While the sentence provides the average lengths of both species' eggs, it doesn't explicitly emphasize the difference between them.

Question ID: 92dec236

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	Medium

Question

While researching a topic, a student has taken the following notes:

- Maika'i Tubbs is a Native Hawaiian sculptor and installation artist.
- His work has been shown in the United States, Canada, Japan, and Germany, among other places.
- Many of his sculptures feature discarded objects.
- His work *Erasure* (2008) includes discarded audiocassette tapes and magnets.
- His work *Home Grown* (2009) includes discarded pushpins, plastic plates and forks, and wood.

The student wants to emphasize a similarity between the two works. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Answer

A. *Erasure* (2008) uses discarded objects such as audiocassette tapes and magnets; *Home Grown* (2009), however, includes pushpins, plastic plates and forks, and wood.

B. Tubbs's work, which often features discarded objects, has been shown both within the United States and abroad.

C. Like many of Tubbs's sculptures, both *Erasure* and *Home Grown* include discarded objects: *Erasure* uses audiocassette tapes, and *Home Grown* uses plastic forks.

D. Tubbs completed *Erasure* in 2008 and *Home Grown* in 2009.

Correct Answer: C

Rationale

Choice C is the best answer. This choice most effectively emphasizes "a similarity" by identifying a trait the works share: "both Erasure and Home Grown include discarded objects."

Choice A is incorrect. This choice doesn't "emphasize a similarity." Instead, this choice shows how the materials used in the two works are different. Notice the use of the contrast word "however." Choice B is incorrect. This choice doesn't "emphasize a similarity between the two works." While it says that Tubbs's work "often features discarded objects," it doesn't provide details about the two works in question. Choice D is incorrect. This choice doesn't "emphasize a similarity." Instead, this choice shows how the works were produced at different times.
